

FIND HAMMER GIRL GUILTY

Lloyd George's Forces Routed

BONAR LAW ELECTION VICTOR

New Premier Is Given Big Working Majority In Parliament

LADY ASTOR WINS BY 3000 BALLOTS

Labor Forces Second In Strength as Many Candidates Win

(United Press Leased Wire) LONDON, Nov. 16. — Premier Bonar Law's Conservatives obtained a clear majority in the general election yesterday, it was officially announced at 4 p. m. today.

Indications were that the premier would have a considerable majority, probably of about forty in the new house.

Labor's many victories yesterday make it likely that this party will supplant the Asquith Liberals as leading "opposition" to the Bonar Law government.

With 514 constituencies reported the standing was as follows: Conservatives, 308; Labor, 114; Asquith Liberals, 47; Lloyd George's, 33; Independents, 12.

Lloyd George's candidates were a bad fourth in the running, but this did not affect the results from his point of view so much as did the fact that Bonar Law appeared to have secured a working majority and hence Lloyd George's handful in the House would not be sufficient to overthrow the government.

Labor's strong fight, making it probable that the party will be the main opposition group in the next house, has been a feature of the election. Arthur Henderson, however, was defeated. J. H. Thomas, Labor Leader, was in by a big majority.

Lloyd George, Asquith, Bonar Law and Clynes, leaders of the four parties, were all elected, the first named being unopposed.

Two women, Lady Astor, former Virginia beauty, and Mrs. Wintingham, members of the last parliament, were re-elected but most of the thirty-one others who stood for election fared badly.

Lady Astor was re-elected by a plurality of 3,000 over her Labor opponent, Captain Brennan, with the Liberal, Dr. Bayley, a poor third.

Winston Churchill, colonial secretary under Lloyd George, was defeated at Dundee.

AGREEMENT ON COLO. RIVER WATER NEAR

(United Press Leased Wire) WASHINGTON, Nov. 16.—Confidential advice received by congressmen in Washington today indicates that the Colorado river basin commission, now in conference at Santa Fe, N. M., has finally reached a working basis for the allocation of the waters of the Colorado river.

Secretary of Commerce Hoover, who is chairman of the commission, has been working on a plan for months past which seems likely of adoption. This plan will allocate fifty per cent of the water to the four northern states, Colorado, Wyoming, Utah and New Mexico, and the balance to the southern states, Nevada, California and Arizona.

Women Militarists Help In Overthrow Of Italy's Cabinet

Large numbers of feminine "black-shirts" accompanied the Fascist army on its march into the Italian capital. The women militarists, are organized into fighting groups but have been restrained by Mussolini from taking part in the violent outbreaks.

SHIP BARON TO HEAD CABINET IN GERMANY

(United Press Leased Wire) BERLIN, Nov. 16.—Wilhelm Cuno, director general of the Hamburg American Steamship company, today accepted the offer of President Ebert to organize a new German cabinet.

It is believed Cuno's selection of associates will be made from industrial ranks and that he will invite into the cabinet men high in the business world.

Herr Cuno, who is forming a German cabinet, was born in Suhl, Thuringia, July 2, 1876. Since 1907 he has been connected with the government in various capacities. His first position was in the treasury department.

During the war he devoted his time to solving the various economic questions brought about by the conflict. Then he became director of the German grain office.

He organized the Empire food department. He was an expert in the armistice meeting at Treves, Belgium, and at the peace meeting at Versailles.

5 POWERS JOIN IN ULTIMATUM TO CHINESE

WASHINGTON, Nov. 16.—The state department has sent no instructions to American Minister Schumann in China directing him to serve an ultimatum on the Chinese government as the result of the capture of Americans by bandits, but American diplomatic officials are under instructions to take such steps as they deem necessary in such circumstances.

(United Press Leased Wire) PEKING, China, Nov. 16.—The United States, France, England, Italy and Sweden today presented an ultimatum to China, giving China one week to release ten foreigners held captive by bandits.

The bandits who hold the prisoners have demanded admission of 10,000 of their number to the national army.

They have notified the Peking government that if force is used in an attempt to rescue the foreigners, the captives will be regarded as hostages and will either be placed in the front lines or will be murdered outright.

Information here shows all of the prisoners thus far as safe.

The belief was generally entertained that Wu Pei Fu and his forces would be powerless to effect a rescue.

NEW TOLL LINE, ALHAMBRA.—It is planned to put on additional toll lines or the two-number service to Los Angeles soon, with two added sections of switchboard in the central office to expedite connections. With a new telephone cable installed on West Main street, more facilities are released for the sections west of First street, north and south of Main street.

\$500,000 'GIFT' TO NUT MEN

The first pool of the Santa Ana Walnut Growers' association, scheduled to close here next Monday night, will probably mean a half-million dollar Christmas gift for Orange county growers, according to a forecast made here today by F. C. Rowland, president of the association.

GUARD KILLS CALIF. MAN IN PRISON

El Centran Dies From Blow When He Attempts to Push Sergeant Over High Cliff.

FORT LEAVENWORTH, Kansas, Nov. 16.—Connie Baker, aged 35, son of Mrs. Alice Baker of El Centro, Calif., was killed at the United States disciplinary barracks here today when he was struck by Sergeant Baldwin, a guard.

It was claimed that Baker had attempted to push Baldwin over a 300 foot ledge. Baker was serving a sentence for desertion from the army. His term was to expire in April.

LEADER OF DRY PARTY CLAIMS WHIP HAND

(United Press Leased Wire) WASHINGTON, Nov. 16.—The drys hold a two-thirds majority of the new congress. Wet's hopes of amending the Volstead act must be deferred until after next election at least.

Wayne B. Wheeler, legislative chief of the Anti-Saloon League, told the United Press today a careful canvass of the new congress had been made and that as a result dry leaders are confident they still control.

Wheeler declared that: 1.—Congressional drys now are massing their forces to withstand the wet uprising which is expected as a result of the wet sentiment in the recent elections.

2.—An effort will be made to "take prohibition enforcement out of politics" by passage of the bill placing all federal agents under civil service.

3.—No new "teeth" measures are planned for introduction in congress—drys being supremely content with the present law.

Wheeler declared the wet era heralded by the election was largely a myth. Investigation had determined, he said, that many congressmen and senators who were claimed by the wets were not wets at all.

REPORT FORMER U. S. ENVOY NEAR DEATH

ELYRIA, Ohio, Nov. 16.—William G. Sharpe, 63, former ambassador to France, is seriously ill at his home here, according to a physician's bulletin from his bedside at 2 p. m. today. Attending physicians refused to state the nature of the former ambassador's sickness.

Sharpe was American ambassador to France at the outbreak of the war. He was the first American to become dean of the diplomatic corps at Paris.

PLAN STRICT LAW TO CHECK BOOTLEGGING

SAN FRANCISCO, Nov. 16.—A law making the seller of poison "bootleg" liquor liable to conviction for murder, may be introduced at the January session of the legislature, "dry" leaders said here today.

MEXICO ENTERS PROTEST OVER U. S. DEATHS

(United Press Leased Wire) WASHINGTON, Nov. 16.—Diplomatic representations over alleged "indiscriminate" killing of Mexicans in small towns in the southwest were lodged by Mexico with the state department here, it was learned today.

Two notes were delivered to the department by the Mexican charge d'affaires. One note detailed alleged murders of Mexican citizens in Texas towns within the past few months, declaring justice has not been meted out to the slayers.

A second note dealt with the situation in Breckenridge, Texas, where, it was reported, Americans yesterday gave Mexican inhabitants 24 hours to leave town or be forcibly ejected.

Both notes called on the government to secure immediate apprehension and punishment of those responsible.

AUSTIN, Texas, Nov. 16.—Federal recognition of the situation at Breckenridge, Texas, where Mexicans are reported to be fleeing following threats from a secret order called the "White Owls" was taken today.

Secretary of State Hughes wired Governor Pat Neff asking that adequate measures be taken to afford protection for Mexicans at Breckenridge.

SCULL CHAMP HELD FOR MANSLAUGHTER

DULUTH, Minn., Nov. 16.—Walter Scully, 24, was arrested here today on a warrant charging manslaughter.

He was released on his own recognizance.

Hoover's automobile struck Herbert Seeley in Madison, Wis., several weeks ago, fatally injuring him. Seeley died today.

KERR FUNERAL SERVICE.

Funeral services for John Kerr, 86, who died at his home at Orange last Tuesday, will be held from the Smith and Tutill funeral parlors tomorrow, at 2 p. m., the Rev. J. G. Kennedy officiating. Interment will be made in Fairhaven cemetery.

Judge Parades 70 Speeders Before Tiny Victims' Cots

BY WILLIAM ARKELL (United Press Staff Correspondent) DETROIT, Mich., Nov. 16.—Picture, row upon row of tiny faces arrayed in hospital cots, crippled children, maimed for life in traffic accidents because of thoughtless speeding and recklessness.

Comes Judge Charles L. Bartlett, Detroit jurist, down the aisle of the hospital ward in escort of seventy convicted traffic violators, trooping in grim procession under police guard.

FIRST POOL TO CLOSE MONDAY

1,800 Tons Received from Participating Growers Is Announced

The first pool of the Santa Ana Walnut Growers' association, scheduled to close here next Monday night, will probably mean a half-million dollar Christmas gift for Orange county growers, according to a forecast made here today by F. C. Rowland, president of the association.

Officers of the association said that about 1800 tons of walnuts were received from growers who will have a part in the first pool.

"Roughly," said President Rowland, "this will mean a Christmas gift of something like \$500,000 for Orange county growers."

Operate at Capacity. "Although we have made no effort to break records, the plant has been operating at capacity for the past few weeks, and today and tomorrow will see the greater part of the yield sacked and distributed."

"Payments to the growers will be made promptly, in view of this excellent showing, and it seems safe to predict that virtually all growers will have received their 'clean-up' checks by next month."

"It is somewhat doubtful whether there will be a second pool. If so, it will be nominal and will not start until the latter part of this month."

Cracking Plant Stays Open. According to Secretary Joe Woodside, 150 women and twenty-five men will be thrown out of employment when the big plant completes the first pool next Monday night. Only the cracking department will remain open thereafter. Two hundred and fifty women will be employed in the cracking department for several weeks.

At the plant of the Anaheim Walnut Growers' association, it was said that about 655 tons of walnuts were received from growers for the first pool.

ASKS BIG INCREASE IN SCHOOL BUDGET

(United Press Leased Wire) SACRAMENTO, Nov. 16.—An increase of \$7,261,000 for running the high and elementary schools of the state for the coming biennium is asked by Will C. Wood, state superintendent of public instruction, in his budget, presented to the board of control today.

The increase is based on an estimated increase in enrollment of 95,655 in the elementary schools and 60,098 in the high schools between 1920 and 1924.

Figures for special and normal schools have not yet been presented.

Wood asked for an increase of \$10,920 to run his office and an increase of \$49,933.33 in the free text book appropriation. His budget for the board of education shows a decrease of \$5,000 due to estimated increased receipts.

heavy iron equipment. The men winced visibly, shuffled their feet nervously and hung their heads, afraid to meet the children's gaze.

"An automobile fixed me," one boy said innocently. "Me, too," said a little girl from another corner of the ward.

Judge Bartlett cleared his throat.

"You see, gentlemen, most of these children would be walking with perfect limbs today but for the carelessness of motorists. It is unpleasant to send any one to jail, but you now realize that it is my duty to protect these children. None of you are going to drive recklessly again, are you?"

Every voice replied, "no." Then they marched to jail to begin their terms.

Clara Admits Verdict Stunned Her But Continues Smiling

LOS ANGELES, Nov. 16.—Clara Phillips smiled—a mechanical yet almost triumphant smile—when interviewed in the jail after her conviction of the murder of Alberta Meadows today.

"I was stunned," she said, describing her emotions as the verdict was read. "There was nothing I could do, and I really don't remember hearing the verdict read."

She paused, struggling to collect her thoughts.

"I don't know how to express my regret that the jury did not believe my story when I know it was true," she said with effort.

JEALOUSY IS HELD MOTIVE IN KILLING

Ventura Youth Shot While in Auto With 17-Year-Old High School Girl.

VENTURA, Calif., Nov. 16.—Identity of the slayer of Buell Barrows, shot and killed as he sat in a car with a girl companion at the beach here last night, today remained a mystery to authorities.

According to the girl, Miss Hazel Middleton, 17-year-old high school student, they were sitting in the front seat of the car when she heard a noise behind them and four shots were fired immediately afterwards.

Authorities today were seeking a suspect, believed to have been actuated by jealousy, it was said.

Barrows, a garage mechanic, was 21 years of age and was the son of Mr. and Mrs. Frank Barrows of Ventura. Miss Middleton is the daughter of Mr. and Mrs. A. C. Middleton of Camarillo.

SUGAR FACTORY OWNERS BOOST BEET PRICES

Contracts for growing sugar beets for the coming season will carry prices approximating a 20 per cent increase over prices quoted in this county in the past, according to announcement this afternoon by C. A. Johnson, of Huntington Beach, manager of the interests in Orange county of the Holly Sugar corporation, owner of the sugar mills at Huntington Beach and Santa Ana.

Based on the selling price of sugar, the minimum price of 15 per cent beets will be \$7.50 per ton. It sugar sells at 6 cents the price paid will be \$9 and for 7 cent sugar it will be \$10.50, under the new schedule.

The average sugar content of beets grown in the county is 18 per cent, for which the minimum will be \$9, with \$10.80 for 6 cent sugar and \$12.60 for 7 cent sugar.

This year's finished product brought 6 cents, returning the growers for 18 per cent beets \$8.40 a ton, as against \$12.50 which will be paid for next year's crop.

Field men of the Holly company factories are now giving growers verbal promise of these prices, the printed lists not yet being off the press.

JURY FREES COUPLE HELD FOR DOG CASE

(United Press Leased Wire) SACRAMENTO, Nov. 16.—Mabel Ross and Louis Belardi were acquitted of the murder of A. Bisio, at the request of Clifford Russell, deputy district attorney, who was prosecuting the case, this morning.

Russell said he had failed to prove a case against the couple and asked that they be freed. The jury was out only seven minutes.

Bisio was killed by a pack of dogs owned by Mabel Ross, the woman told authorities at the time the mutilated body of the man was found in his cabin. She said she and the man had quarreled, and that her dogs had jumped on him when he struck her. She denied hitting the man.

ENDS LIFE WITH GAS. LOS ANGELES, Nov. 16.—The body of Laura Eva Wagoner, 45, was found in a rooming house here today when other tenants smelled the gas which had been turned on in the room. Nothing was known of the woman's history except what was contained in a brief note indicating suicide and stating that she came from a small town in Minnesota.

JURORS IN 2ND DEG. VERDICT

"Could Have Been a Whole Lot Worse," Clara's Comment

10 YEARS TO LIFE IN PRISON PENALTY

Father of Murdered Victim Bitter Against Action of Jury

LOS ANGELES, Nov. 16.—The jury's verdict convicting Mrs. Clara Phillips of second degree murder was under fire from all sides here this afternoon.

Defense Attorney Herrington was preparing an appeal on the basis of the court's errors, he stated, while Deputy District Attorney C. W. Fricke, chief prosecutor, declared that he would demand an explanation of the verdict from the jurors.

Mrs. Phillips appeared to be the only one anywhere nearly satisfied. She has not yet decided to press her attorney's appeal. "They might hang me the next time," she said.

(United Press Leased Wire) LOS ANGELES, Nov. 15.—When Clara Phillips beat Alberta Meadows to death with a hammer, she did so under extreme provocation, the jury in her trial held today.

Nine men and three women who rendered the verdict of guilty stipulated the crime was second degree murder.

The verdict was returned at 10:30 a. m. today after approximately twenty-three and one half hours of deliberation.

Ten years to life imprisonment will be the penalty.

Mrs. Phillips, deathly pale, received the verdict without moving a muscle. She seemed overwhelmed.

Absolute silence prevailed in the courtroom after the announcement until broken a few minutes after by the sobs of Clara's two sisters.

Otherwise the crowded courtroom made no sound as the jury announced its findings.

His daughter, Genora, remained at his side, weeping. She would not comment.

Eight of the jurors, including three women members, voted for murder in the first degree. Foreman J. McSwain stated. The compromise on second degree murder was reached after eight ballots had been taken.

McSwain, after the release of the jury, was surrounded by newspapermen.

"It was a compromise verdict," he said. "We voted for second degree murder after we found it was impossible to get agreement on a straight conviction. Eight of us, including the women, wanted to hang her. I don't mind saying."

Mrs. Phillips after the first shock almost immediately recovered her composure.

When Deputy Sheriff Frank Dewar, her guard, leaned over and spoke to her she turned to him with her never-failing smile.

"Well," she said in a strong, distinct voice, "it could have been a whole lot worse."

Fred Tremaine, father of Alberta Meadows, received the verdict with disgust.

"I don't know what one would have to do to be guilty of murder in the first degree," he said.

Armour Phillips, the husband, who first gave information on his wife, slumped in his seat with a forced grin, as though relieved that his wife would not have to die for the crime.

Judge Houser announced that sentence would be pronounced at 10 a. m. Monday.

Bertram A. Herrington, defense counsel, gave notice of appeal. He had been expecting disagreement, and appeared astonished at the verdict.

E. S. Sutton, E. D. Eddy, John C. Mehler, and John Blackburn were from the first degree murder verdict, it was learned. These four voted for manslaughter on the first ballot taken, when the other jurors cast their ballots for first degree conviction.

Mrs. Phillips was brought into court when it opened this morning.

FIND HAMMER GIRL GUILTY IN KILLING

(Continued from Page 1.)

and created intense excitement, as her entrance indicated there was to be a report from the jury.

Guards were posted about the room, when Judge Houser announced that the jury was about to be called for a verdict, and warned against demonstrations.

Clerk Reads Verdict.

The jurors entered court in slow procession and were seated before Judge Houser asked if a verdict had been reached.

Foreman McSwain arose and replied with the monosyllable "yes." He then handed the written verdict to the clerk who, after a dramatic pause, read:

"We, the jury find the defendant guilty of murder in the second degree."

Clara Phillips' hands were on her hat, which she pulled down over her face with a convulsive movement. Then silence for several minutes.

IRON MINING TO RESUME
PORT ARTHUR, Ontario, Nov. 14.—After a long period of inactivity the iron mines at Atikokan are to be worked by interests that, judging from information that is available, mean business. The lessees are under bond to pay a minimum rental of \$50,000 per annum for the first two years, and \$200,000 per year for the following 26 years. The closing of the deal will mean active mining operations on a property that has been idle for about 12 years.

All intoxicating drinks known to the ancients seem to have been fermented, the art of distilling liquors being first mentioned by Al-bukassen, an Arabian physician of the tenth century.

James noonday lunches.

James noonday lunches.

LOD LOSS IN GRAPES HELD 4 MILLIONS

LODI, Nov. 16.—Although 5,919 cars of grapes were shipped from the district this year, 2,048 were box cars. Last year 8,522 cars were shipped, and only 671 of these were box cars.

The tonnage this year was estimated at 137,000 tons, of which Lansing B. Bailey, secretary of the Lodi Growers and Shippers League, estimates 50,000 tons remain on the vines today.

Average \$50 Per Ton.

Growers and shippers agree that it is hard to compute an accurate average price per ton to cover both table and wine grapes, but it is agreed that \$50 a ton for the grapes sold would be fair. At this rate the grapes shipped from the district and crushed are valued at \$5,000,000, and the loss to the district for the grapes on the vines is \$4,500,000. The tonnage this year, according to E. A. Humphrey, local manager of the Earl Fruit company, was 20 per cent higher than other years.

Growers Worried.
Several growers who had 50 and 60 tons of grapes only shipped 10 to 200 crates, which will hardly pay the mortgages on the land that some of them owe; and it is a question in their minds whether or not the bankers will carry them.

It has rained 4 inches in the past three days. Two inches fell during the last twenty-four hours.

MANY TOUR IN NORTHLAND
ST. JOHN, New Brunswick, Nov. 16.—Over 30,000 tourists have passed through St. John this season by boat, train and motor. Five thousand foreign automobiles were registered here within the past few months. This is said to be the largest tourist movement in this city since before the war.

The diameter of the earth at the equator is 7926.5 miles, but at the poles, since the sphere is flattened in that direction, only 7900 miles.

Explains How Enlarged Veins Can Be Reduced

Often Times Veins Burst and Cause Much Suffering, Expense and Loss of Employment

Many people have become despondent because they have been led to believe that there is no remedy that will reduce swollen veins and bunches. If you will get a two-ounce original bottle of Moore's Emerald Oil (full strength) at any first class drug store and apply it night and morning as directed you will quickly notice an improvement which will continue until the veins and bunches are reduced to normal.

Moore's Emerald Oil is extensively used in hospitals and in factories as first aid to the injured. It is a harmless, yet most powerful germicide and two ounces lasts a very long time.

Indeed, so powerful is Emerald Oil that soft bunches, goitres, swollen glands and wens are reduced. It is one of the wonderful discoveries of recent years and anyone who is disappointed with its use can have their money refunded. Your druggist can supply you.—adv.

Southern California

LONG BEACH—Plans have been drawn and ground will be broken within sixty days for the new Ebelle clubhouse to be built on the southeast corner of Third street and Cerritos avenue. An auditorium with a seating capacity of 1200, a stage of sufficient dimensions to produce plays, conveniently located class rooms and easy access to the main arteries of the building are features of this new addition to the Spanish architecture in Long Beach.

LOS ALAMITOS—A prolonged blast from the sugar factory whistle on Wednesday morning at 5 o'clock announced the finish of the cutting for the season.

REDLANDS—The Community shop which is this year under the management of Mrs. Frederick W. Harley, with Mrs. L. L. Moore as assistant, opened today to receive donations, and every morning throughout the week will be open from ten until twelve to receive gifts.

MODESTO—Julius Couney, aged 11, nephew of William Nolan, farmer residing on the Crow's Landing road, eight miles from here, was knocked from a roller coaster by an automobile driven by Irvin Lee, jitney driver of Modesto.

REDLANDS—Following the concert by the Redlands band at the amphitheater yesterday afternoon the Young People's Branch of the W. C. T. U. of Pasadena took charge of the interesting program on Anti-Narcotics. I. P. Bowen, speaker of ability, from Canada, and W. M. newly elected state superintendent of anti-narcotics for the young people's branch of the W. C. T. U. debated.

FRESNO—Burglars ransacked the desk of President C. L. McLane of the Fresno State college, the desk of his secretary, and that of Miss Maude E. Schaeffer, dean of women, Sunday night.

RIPON—The death in a hospital here last night of one year old Pearl Brinkmeyer, followed twenty-four hours later by that of her father, W. F. Brinkmeyer, today left Mrs. Brinkmeyer both a widow and motherless. The two deaths were from burns sustained when the family home was destroyed by fire early Saturday morning.

SAN LUIS OBISPO—A tract of farming land comprising more than 74 acres has been sold by Mrs. C. J. Thompson and her daughter, Abbie Montell, and the latter's husband, George Montell, to Antonio V. Sequiera. Revenue stamps on the deed indicate a selling price of approximately \$21,500.

BLOOMINGTON—Demand for property in the "Bloomington Ranch" by Bloomington residents is brisk, according to Edwin G. Hart, general agent for the property. He stated that residents of the city have already invested a total of \$15,000 prior to the formal opening of the tract.

ELSIPORE—A. W. Stewart, popular clothier and chamber of commerce president, who for several years has occupied the two-story brick building at Graham avenue and Main street, has purchased the building from Mrs. Crawford, of Riverside.

BEARDSLEY—Horticultural Commissioner Harold L. Pomeroy has begun the first official tests of the season for Kern county orange growers with samples of the new crop obtained from Beardsley. The orange will be tested for acidity and specific gravity.

RIVERSIDE—Thin strata of oil sands pierced by the Arrowhead Development company's well in Cajon Pass some weeks ago produce oil of a high gravity paraffin base, according to the report of chemists.

RIVERSIDE—The Auburn-Truckee road to Lake Tahoe has been closed for the season. The last storm left four feet of snow on the summit and several motorists who were trying to get through had to ship their cars from Colfax to Truckee by freight.

CHAFFEY—Plans for a triangular Junior College debate on December 1 were completed at Chaffey Friday. The question which will be decided by the Junior college students of Chaffey, Riverside and Pomona is: "Resolved, That the United States should cancel its war loans to the allies, Russia excepted."

HEMET—The Hemet Valley Chamber of Commerce will place an exhibit at the National Orange show to be held in San Bernardino in February and Secretary Raynor will ask co-operation of the Hemet Orange Growers' association as well as the support of the individual citrus grower.

San Bernardino—An automobile stolen in Cedar City, Utah, was recovered last night when Officer Walter Riley arrested Morris Foster and Lorine Pendleton. The youths drove into San Bernardino last night 24 hours after the local police were telegraphed of the theft.

LONG BEACH—There were 114 births in Long Beach during October, the number being evenly balanced as to sex. White children were 111, and three were Mexicans. Deaths for the month totalled seventy-five, of whom sixty-one were residents. Five deaths were from violence, one homicide, one suicide, and three automobile wreck victims.

SOCIETY

Ladies' Aid Society

Fifty-two members of the Christian church Aid society picnicked at the community house yesterday and enjoyed a busy and profitable day. At the noon hour they were joined by their husbands, who gladly shared picnic fare with them.

At the afternoon business session, the president, Mrs. T. D. Knights, took occasion in her opening remarks, to extend a greeting from the society to Mrs. F. M. Gist, the secretary, who was at her first meeting after an absence of a number of months spent in the east with relatives.

Among interesting matters discussed was the plan for the annual newsboys' banquet, which was set for the night of December 23 in the church diningroom. Mrs. W. B. Williams was appointed to take charge of the arrangements and at the next Aid society meeting scheduled for November 29, will appoint her committees for the final details.

Woman's Union

In church parlors made bright by autumn leaves, speaking of the season of the year, the annual thank-offering of the missionary department of the Woman's Union of the Congregational church was held yesterday afternoon.

The business session was in charge of the president, Mrs. F. P. Crose, and Thanksgiving devotions were led by Mrs. Mary Bruner. Members had the pleasure of listening to a delightful violin solo by Elwood Bear and an inspiring vocal number by Mrs. F. W. Slabaugh who acted as her own accompanist as well as for Mr. Bear.

One minute talks given by different members told of their impressions of a meeting recently attended at Pasadena, after which the speaker of the afternoon was introduced, Mrs. George H. Clark, of Los Angeles, president of the Home Missionary Union of Southern California.

Her subject was "Asilomar," and she most graphically described the place and interested all in the advantages to young people attending the summer conferences there. Mrs. Clark was so charming in her presentation of her subject that all regretted that she could not speak longer.

A social hour followed and refreshments were served by the hostesses, Mesdames McCord, Mitchell, R. R. Miles, Mozley, Miller, Mosher, Nicky, Neally and Neff.

PERSONALS

Mr. and Mrs. R. L. Bisby are entertaining a pleasant house-party whose members include Mr. and Mrs. William Waters of Watsonville; Mrs. Ed Reiley of San Luis Obispo and Miss Martha L. Peterson of St. Paul, Minnesota. The guests will remain for the balance of the week.

Mr. and Mrs. G. A. Rowell, of 2042 Bush street, returned Wednesday from a two months' visit in Iowa. They visited their old home in Cedar Rapids and also friends and relatives in Des Moines. They report a delightful trip but are glad to be back in Santa Ana.

Mrs. John Strassberger, 726 South Main street, has returned from San Bernardino where she visited her brother, C. E. Mooman and family, and her mother, Mrs. Lucinda Mooman.

GRAIN RECORD IS EXCEEDED
MONTREAL, Quebec, Nov. 16.—Notwithstanding that the busy season of grain traffic in Montreal harbor has started three weeks later this year than last, the volume handled by the port this season is only a million and a half bushels below the record of last year. From the opening of navigation to September 19th, the port handled a total of 95,612,825 bushels, 72,826,488 by the Harbor Commissioner's elevators and 22,786,342 by the Grand Trunk. This figure represents a decrease of 1,576,494 bushels from the total of 97,199,319 bushels handled during the same period last year.

Teal are Marked and Freed
TORONTO, Ontario, Nov. 16.—About 200 teal have been marked and released from Lake Scugog during and since 1920, for the purpose of ascertaining particulars of the flights of these birds. A fowl marked and released on September 4, 1920, was killed two months and seven days later on the island of Trinidad, to which point the direct distance is 2,000 miles.

Lord Kelvin estimated that the world is 20,000,000 years old, but there are few, if any, geologists who do not contend that its age is much greater than that.

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid.

It is unnecessary for you to suffer with Eczema, Blotches, Ringworm, Rashes and similar skin troubles. Zemo obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases. Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. Get it today and save all further distress.—Adv.

extra special
whipcord suits
—in four beautiful shades, tan, grey, olive drab and a rich brown

all sizes including "stouts" \$35.00 ever see such a value?

THE most blasé man must say, "Spence, you're there!" when his eye and consciousness are smote with a choice of four striking colors in genuine whipcord suits in all sizes at thirty-five dollars! The "Ormond" model, with bellows plaits—four patch pockets with buttoned flaps—and the conservative model in stout sizes—it's no dream, they're all here!

You must surely itch to get into the store to see how well you look in one of the models.

Occidental

Occidental Gas Ranges Set the Standard of Fine Stove Construction!

Every one of these OCCIDENTAL features unite to make the OCCIDENTAL the one perfect Gas Range.

Cast Iron Oven Bottom, retains the heat and distributes it more evenly, will not warp or burn out.

Heavy Armco rust resisting iron body, long life.

Genuine Wilder rust proof oven linings, removable, easy to clean. Heavy cast oven front.

Heavy sheet metal parts. Variety of finishes.

This is GAS APPLIANCE WEEK
Dont Fail to See the OCCIDENTAL!

Inspect this range in every detail, see how its trim lines and durable finish will fit into your kitchen—adding both fine appearance and convenience. Then find out how the OCCIDENTAL will prove an economy in the gas it saves.

We also want you to see how the OCCIDENTAL bakes biscuits with the Gas Turned Off. This is not merely a stunt but is another proof of how OCCIDENTAL construction retains heat and saves fuel! Demonstrations this week.

BACK FEEL LAME,
SORE AND ACHY?

Are you lame every morning?
Do you drag through the day with
a steady, aching backache?—
"ening find you 'all played out'?"
Probably your kidneys are to
blame. Hurry, worry, lack of rest
and a heavy diet, all tend to
weaken the kidneys. Your back
gives out; you feel depressed and
suffer headaches, dizziness and
kidney irregularities. Don't
suffer from bad to worse. Use Doan's
Kidney Pills. Home folks recom-
mend them. Ask your neighbor!
Here's a Santa Ana case:
J. W. Winslow, grocer, 608
Washington Ave., says: "Mornings
there was a lameness and sore-
ness in the small of my back and
I ached all over. The action of
my kidneys was irregular. I
read about Doan's Kidney Pills in
the paper and one box cured the
aching in my back, regulated my
kidneys and made me feel better
in every way."

CONCERT—RECITAL

NEWS BRIEFS

According to Herbert Davis,
secretary, the general meeting of
the Orange County Automobile
Trades association to be held at
the George Sutton garage, to-
night, will be largely attended
by members. The presence of
Harry Massey, president of the
California Automobile Trades as-
sociation, is to be a feature of
the session, which is to begin at
8 o'clock.

J. T. Tidball will go to Los An-
geles tomorrow morning to meet
Mrs. Tidball, who is returning
from a six-months' trip abroad,
where she has been on a visit
to her son, Charles T. Tidball,
wife and baby who are living at
Geneva, Switzerland. For the
present Mr. and Mrs. J. T. Tid-
ball will reside with their son,
Dr. G. Tidball, 1521 West Fourth
street, until they can get posses-
sion of their residence at 1321
West Fourth street, which is now
rented.

Mr. and Mrs. W. D. Ranney
have returned to their home at
108 East First street here after
a two-months' trip in the East.
Ranney attended the National
Dairy show at Minneapolis, Minn.,
and the National Ice Cream con-
vention at Cleveland, O. On their
return trip from their old home
in New York the Santa Anas
visited at Garden City, Kans.,
and at Grand Canyon.

Young women of the Catholic
faith at Santa Ana, Anaheim,
Fullerton, Orange and Hunting-
ton Beach today were looking
forward to a meeting to be held
December 1, for organization of a
Young Ladies' institute in the
county. Plans for such an or-
ganization were discussed at a
meeting of young women held at
Orange Tuesday evening. If or-
ganization is perfected, the Or-
ange county unit will become
identified with the national as-
sociation.

Orange county members of the
Universal Brotherhood and The-
osophical society are deeply in-
terested in the announcement
that Madame Katherine Tingley,
of that society, is to speak in the
Ebell club auditorium, Los Ange-
les, next Sunday at 8 p. m.
Madame Tingley is starting up
on a lecture tour through the
United States.

The board of education will
meet today at 7:30 p. m. it was
announced, when a special meet-
ing of the board adjourned late
yesterday afternoon. It was ex-
pected that a report on the resolu-
tion being prepared by Dis-
trict Attorney A. P. Nelson call-
ing for a \$400,000 school bond
election would be heard by the
board tonight.

Mrs. W. F. Miller, daughter of
Mr. and Mrs. C. W. White of this
city, today was suffering from a
fracture of the right arm, sustain-
ed at her home at Ventura yester-
day while she was taking gymnastic
exercises. Mrs. White expects to
go to Ventura Saturday to be
with her daughter.

A night crew for collection of
city garbage will be placed at
work December 1, Edward Dahl,
street superintendent, announced
today. The opening of various sub-
divisions and the erection of num-
erous residences has resulted in
the quantity of garbage collected
each day increasing to the point
that the day force no longer is able
to make the pick-up in an eight-
hour day, it was stated.

With a large quantity of "potato-
es on hand as the result of a cam-
paign to collect good things to eat
for distribution among the poor
on Thanksgiving day, children of
the junior high school today con-
tributed jam and jelly to the col-
lection. Onions were given yester-
day. Tomorrow will be orange and
apple day and the campaign will
close Monday with donations of
old clothes.

Dairymen will meet tomorrow
at the Segerstrom ranch, Fair-
view, W. M. Cory, assistant farm
adviser, said here today. The
meeting is scheduled for 10 a. m.
The Agricultural Extension ser-
vice will conduct cow judging con-
tests. A representative of the Cal-
ifornia Milk Producers' association
is expected to address the meet-
ing. F. C. Wright, veterinarian, will
give a talk.

Quiet Wedding
Among wedding events of the
week was the ceremony performed
at the United Brethren parsonage
Monday evening at 8:30 when Miss
Kate A. Van Coughnet became the
bride of John C. Walker.

The marriage service was read
by the Rev. Lerome L. Parks,
pastor of the church. The young
people will make their home in this
city where Mr. Walker is employed
as a sign writer.

Newlyweds Return
From Honeymoon

Returning from a delightful
honeymoon, Mr. and Mrs. Ernest
Gates have announced to their
friends that they will be welcomed
at the pleasant Gates home on East
Sixth street, Long Beach.

Mr. and Mrs. Gates were wedded
in this city on October 30 by the
Rev. Father Henry Bummelen of
St. Joseph's Catholic church. Mrs.
Gates was formerly Miss Loraine
Ludden, of Wellsville, New York,
but has made her home for several
months in that city where she was
popular in a large circle of friends.
Mr. Gates is one of the young busi-
ness men of Long Beach where he
has made his home for several
years.

More Men Than Women
Have Appendicitis

Medical reports show men are
more subject to appendicitis than
many sudden cases occur among
women, it can be guarded against by
interesting intestinal infection.
The intestinal antiseptic, Adier-lin, acts
on BOTH upper and lower bowel,
removing all bacteria, and thus
which might cause infection. It brings
out matter you never thought was in
your system and which may have
been poisoning you for months. Ad-
ier-lin is EXCELLENT for gas on the
stomach. Nowley Drug Co., adv.

LOCAL ARTISTS
TO PERFORM
FOR KFAW

Miss Harriett Owens, dramatic
reader and teacher, Miss Cathleen
Owens, soprano, and Miss Pruden-
ce Macomber, pianist, will lead
the program to be broadcast by
KFAW tonight.

All three artists are Santa Ana
people, well known and popular.
Broadcasting will begin at 8
o'clock.

Reports by radio listeners on
these programs are always appre-
ciated. It has been announced, it
was said it would be interesting
to know what kind of program is
liked best by the majority of lis-
teners.

An effort is also being made to
have a balanced program.

'JUNGLE NEWS' BIG
HIT AS LIONS MEET

"The Jungle News," issued at
12:15 p. m. today at the meeting
of the Lions club at St. Ann's inn,
made a big hit with the namesakes
of the jungle beast.

Today was "Horace Fine's Day"
at the club. Fine, a member of
the program, he brought to the
attention of the members the
operations of a newsroom of a
newspaper, with managing editor,
city editor and reporters, the lat-
ter, in their articles, "hitting"
members of the club.

Fine was managing editor; John
A. Henderson Jr., city editor; the
Rev. Perry F. Schrock, pastor of
the First Congregational church,
editorial writer; Wayne Goble,
city hall and street reporter; S.
B. Kaufman, court house man;
Capt. Warren Hilliard, society;
Cal Prior, sports; Harry Hanson,
financial writer; J. A. George, in-
vestments.

The "reporters" developed some
very clever articles with members
of the club as subjects. The stunt
went over big and was declared by
members to have been a success
in every detail.

Coach M. H. ("Spud") Morrison
and his high school football team
were guests of the club and were
hailed as the coming winners of
the Southern California champion-
ship. In commenting on the invita-
tion to the team at this time,
President Elliott H. Rowland said
that the club desired to entertain
the gridiron squad in advance of
its winning the championship of
the South. He predicted that Santa
Ana would go into the finals for
the state honors.

ASSEMBLYMAN-ELECT
BALL TO BE HOST AT
CLINICAL BODY MEET

Dr. C. D. Ball, assemblyman-
elect from this district, will be host
at a meeting of the Santa Ana
Clinical society at St. Ann's inn
here tomorrow night, it was learn-
ed today.

The gathering, to which Dr. Ball
has extended invitations to the
physicians of Orange county and
their wives and approximately
twenty alumni nurses of the Com-
munity hospital here, will be fea-
tured by a banquet beginning at
7:30 o'clock. Almost 100 guests
will be present, it was believed.

Dr. J. M. Burlew of Santa Ana
will read a paper on a subject con-
cerning his recent trip East.
Toasts and responses are on the
program. Dr. Ball will deliver the
principal address.

FEDERATION TO HONOR
ORANGE CO. WOMEN

SAN DIEGO, Nov. 16.—New of-
ficers of the Southern California
District Federation of Women's
clubs, slated for election here this
afternoon are:

President, Mrs. Kenneth D. Oliver
of Imperial county; vice president
at large, Mrs. Ira A. Ashcroft, Riv-
erside county; treasurer, Mrs. L.
Bishop, San Bernardino; auditor,
Mrs. W. W. Crozier, Orange county;
state nominating committee,
Mrs. C. A. Alverson, San Diego
county; state credentials commit-
tee, Mrs. Immanuel Smith, Orange
county.

RAIL ACCIDENTS ON
DECLINE, IS REPORT

SAN BERNARDINO, Nov. 16.—
Statistics received at the Santa Fe
division offices from Safety Super-
intendent of the System Isaiah
Hale shows that there have been
fewer accidents due to railroad op-
eration than in any similar period
of the road's history. This how-
ever does not apply to the accidents
at grade crossings against which
a national drive was directed and
which are increasing daily.

Efficiency of the safety devices
and safeguards thrown about hu-
man life while traveling from one
point to another is attested by the
reduced figures in the number of
lives lost in such wrecks. The large
percentage of all accidents and
fatalities which occur on the rail-
roads come about as the result of
carelessness on the part of some
one not connected as an employee
or otherwise of the road.

The total number of persons
killed in 1921, according to the re-
port, was 5,996 as against 6,328
during the year previous, a de-
crease of 929. Even a still more
marked decrease is expected this
year.

REPORT EARTHQUAKE
WIPED OUT ISLAND

SANTIAGO, Chile, Nov. 16.—
Rumors were persistent here to-
day that Easter Island completely
disappeared in the recent
earthquake. This report could
not be confirmed, however, and
many government officials de-
clared it untrue.

Easter Island is located off the
south Chilean coast. It has an
area of fifty square miles and a
population of 1,250.

We rent Fords, Dodges and
Buicks as low as \$2.00 and \$3.00
per day. Owl Taxi, 411 No. Syca-

Dentists are
wonderful
fellows

If your barber were to point out to you
that you could save money by shaving
yourself at home you would be afraid
to go back to him again. You'd think
he was crazy.

Yet your dentist, who has spent from
four to twenty years or more in learn-
ing how to repair, clean, straighten or
extract teeth or to replace lost teeth
with crowns or plates, daily "throws
away money" by cautioning his pa-
tients and teaching them how to pre-
serve their teeth so his services will
not be needed.

BIG WAR ON FAULTY
AUTO LIGHTS, PLAN

A "general and devastating war"
will be begun by county motorcycle
officers Saturday night against
headlights improperly adjusted.
District Attorney A. P. Nelson an-
nounced here today.

The district attorney issued the
warning so that motorists may have
a brief time to make proper ad-
justments. He explained that cer-
tificates, issued by testing stations,
would be respected and that presen-
tation of the certificate would
result in remanding the holder back
to a station for further correction.
Without the document, a driver
with glaring lights, will be liable
to a fine, he said.

When complaints are issued they
will be based on charges that lamps
are out of focus and not on the
charge that lamps diffuse a glaring

light. The district attorney is of
the opinion that an officer can de-
termine when the lights are not cor-
rectly adjusted better than he can
tell whether they are without the
legal specifications on lights.

Institution of the campaign is a
result of a conference between the
district attorney and the four county
motorcycle officers. The full
crew will keep vigil on the roads
at night to make special observa-
tion of lights.

"Conditions on the highways at
night are serious, with the lamps
of so many automobiles out of ad-
justment," Nelson asserted. "We
must do something to eliminate the
menace and I have instructed the
officers to pick up every driver op-
erating a machine on which head-
lights are out of focus."

heads of the operating department
here stated it would result in a
saving of more than 300 miles on
each shipment originating on the
system's lines and shipped from the
interior of the United States to the
Pacific Coast for trans-Pacific trans-
portation.

San Bernardino is situated on the
vital link in the system and this
fact alone guarantees that the
yard forces and trainmen of the
Los Angeles division residing here
will have their numbers increased
very shortly because of the traffic
rush.

Cutlery Sharpened. Hawleys.
James noonday lunches.

NAME OF NEW SUSPECT
IN STABBING BARED

Another link was added today
to the chain of evidence in the
case of Edward Bastillos, "slum-
ber stabbing" victim, as Deputy
Sheriff C. M. Woods, investigat-
ing the crime, disclosed the name
of Jose Pineda, the second sus-
pect sought by authorities.

Pineda and a companion named
Favian Martinez, believed by
authorities to have stabbed the
elderly man because he refused
to allow them to "keep company"
with two girls living in the Bas-
tillos home, were supposed to
have gone to Imperial valley im-
mediately after the stabbing.

Woods had a description of the
car in which they were believed
to have made the trip, and was
in touch with authorities there
on the matter.

300 MILES SAVED ON
HARBOR RAIL ROUTE

SAN BERNARDINO, Nov. 16.—
Increased traffic for the Los An-
geles division, passing through San
Bernardino and over the Cajon
Pass-Desert lines, is the prospect
that has been enthusiastically re-
ceived by local officials of the San-
ta Fe following the announcement
made officially that the system
would be permitted to take over
and operate the extension into the
Harbor district.

Pointing out what this means to
San Bernardino and to the railroad

Two Lovely Brides Take Nuptial Vows In Church Wedding

Offering an impressive back-
ground for an unusually beau-
tiful ceremony, the First Christian
church was this afternoon at 2 o-
clock, the scene of a double wed-
ding when Miss Grace Boutwell
became the bride of Franklin Ed-
ward Angell and Miss Thelma
Summers became the bride of La
Verne Gully.

Strains of wedding music her-
alded the approach of the party
to the altar where the Rev. F. T.
Porter was awaiting. In the
hush which followed he read the
impressive nuptial ceremony.

The two brides offered a
charming contrast in their wed-
ding gowns, Miss Boutwell choos-
ing lace and Miss Summers
wore a shell-pink satin crepe.
Both gowns were simply draped,
the richness and beauty of the
materials being such that trim-
mings were superfluous. Both
Miss Summers and Miss Boutwell
were of the brunette type and their
bride's loveliness was identical as
were their arm clusters of Cecil
Brunner roses.

Immediately after the ceremony
the happy little group departed
by motor for San Diego where
honeymoon days will be spent.
Mrs. Gully, (Miss Summers),
wore a brown travelling suit
while that of Mrs. Angell (Miss
Boutwell) was brown.

Upon their return each young
couple will establish a home in
this city although Mr. and Mrs.
Gully will remain temporarily
with Mr. Gully's uncle and aunt,
Mr. and Mrs. George W. Ford,
1342 North Ross street, Mr. Gul-
ley resuming his work with the
Pacific Telephone and Telegraph
company.

Mr. and Mrs. Angell will reside
at 120 West first street and Mr.
Angell will continue his duties
with the Crown Sizing company
where he is book-keeper.
The pretty wedding is an out-
growth of a double romance
which began at the Orange Coun-
ty Business College where the
quartette first became deeply in-
terested in each other. Mr. Gul-
ley and Mr. Angell are both
Santa Ana High School graduates
as well. Miss Summers was a
student at Orange High School
ere her entry to business col-
lege. She is the daughter of Mr.
and Mrs. Frank Summers of
Placentia and came to California
from Astabula, Ohio, about a
year ago.

Miss Boutwell is the daughter
of Mr. E. A. Boutwell, 700 South
Main street. Mr. Angell is the
son of Mr. and Mrs. C. F. Angell,
610 South Birch street, while Mr.
Gully is the son of Mr. W. F.
Gully and a nephew of Mr. and
Mrs. George W. Ford with whom
he has made his home.

Those attending the wedding
were Mr. and Mrs. Frank Sum-
mers of Placentia, Mr. and Mrs.
Ernest Dozier of Orange, Miss
Summers' aunt and uncle; Mr.
and Mrs. C. F. Angell, Mr. and
Mrs. Chester Young brother-in-
law and sister of Mr. Franklin
Angell; E. A. Boutwell, Mr. and
Mrs. Harry Boutwell, brother and
sister-in-law of Miss Boutwell.

Household Economics

The Thanksgiving meeting of
the third section Household Eco-
nomics section of Ebbl club will
be held at the home of Mrs. S. L.
Randall, Cooley apartments, 25 1/2
North Birch street, Friday after-
noon at 2:30.

Those fine lined sewing baskets
are priced very low at the Goff
Gift & Art Shop.

The finest assortment of novelty
bead necklaces in the city are to
be found at the Goff Gift & Art
Shop, 316 W. 4th.

Rotarian Wives Join Husbands In Pleasant Little Trip

Pleasure experienced at the Sa-
markand, Santa Barbara's beau-
tiful Persian hotel, are still being
discussed by a number of Santa
Ana women who recently accom-
panied their Rotarian husbands to
that city as guests of Santa Bar-
bara Rotary club.

The local members were invited
by the Santa Barbara club to pre-
sent their skit, "The Rotary Manu-
facturing Company, Unlimited,"
last Thursday night. The perfor-
mance was preceded by a banquet
at the Samarkand. The following
day, the woman members of the
party enjoyed a motor trip through
the city and surrounding country
while the men attended to Rotary
business details. The majority of
the party returned to Santa Ana
Friday evening but a few remained
at the Samarkand for the weekend.

Among those who made the trip
were Mr. and Mrs. Robert Tuthill,
Mr. and Mrs. Hubert H. Dale, Mr.
and Mrs. Earl S. Morrow, Mr. and
Mrs. Robert Brown, Mr. and Mrs.
Gus Daley, Mr. and Mrs. Don Lov-
eridge, Mr. and Mrs. Fred Rowland,
Mr. and Mrs. J. C. Hayden, Mrs.
Ellis Rhodes.

Messrs. Guy Gilbert, A. H. Pat-
terson, Robert Conway, Charles
Heit, Clarence Gustlin, Elmer
Heit, and Elmer Jauras.

106 South Birch street, members
of the First Travel section of Ebbl
club will enjoy the hospitality of
Mrs. Smith and Mrs. William
Smart at a 1 o'clock luncheon,
Monday, November 20.

Book Review By JENNIE LASSY

The Book Review Club met at
the home of Mr. and Mrs. Edward
M. Nealley for its regular month-
ly meeting Tuesday evening. The
program included two very beau-
tiful piano numbers rendered by
Miss Margaret Wickes. The pa-
per of the evening was a review
of Wells' Outline of History and
Mrs. R. A. Cushman gave a very
complete and sympathetic sum-
mary of this work.

Mrs. Cushman opened her talk
with a brief account of the re-
ception of the book by different
critics—literary men and histo-
rians who teach but do not write
histories, are enthusiastic, but
historians who write, criticize
the work bitterly. Some of the clergy
object to its use in college
while some colleges use it as the
text book of history.

Wells, unlike most historians,
begins with the beginning of time
and not of written history. He
outlines the development of the
earth before life began, from 800,
000,000 to 80,000,000 years ago.
Through the age of microscopic
life, of fishes, reptiles, mammals
and finally, the rise of man a half
million years ago. The very in-
complete records of primitive man
tell little until at last there stand
out the unmistakable evidence of
four developed races, Mongolian,
Australian, Ethiopian and Euro-
pean. Wells adopts the theory of
biology that these races will again
unite.

From the time of his history
about Wells main ideas, first, the
idea of universal righteousness,
second, of science; third, of polit-
ical unity. The first revolution-
ary material is in his treatment
of the Jewish race who, he as-
serts, borrowed their myths of
creation and national characters
from the Babylonians. Wells
does give them full credit for
their two great contributions to
civilization, the doctrine of in-
dividual righteousness and the be-
lief in one God of infinite great-
ness and goodness which led to
the possibility of a spiritual fac-
tor or Christ.

A second revolutionary theory
is that of democracy of the
Greeks was too much extolled.
Wells asserts that there were
only a few superior Greeks, the
rest indulged in "spoken yellow
journalism" on the streets. The
one great character was Aristotle
who contributed to science and
was the first historian to classify
and analyze.

In contrast to Greece at this
time was India, a far happier and
more advanced nation. Asoka,
one of the six greatest men of
history was trying to introduce
true democracy and reform social
conditions. His greatest contribu-
tion was in his theory of educa-
tion, which he conceived to be a
preparing of people for everyday
life.

Wells next analyzes Rome,
which he styles a "Neanderthal
nation" and attributes the fall of
Rome to a lack of a common po-
litical and moral ideal, and the
absence of science and civilizing
influences. The author also of-
fers a justification of the Huns
who were no more cruel than the
Romans.

The one sign of political unity
in Europe during the Middle Ages
is found in the first and second
Crusades which also show the
persistence of a common ideal of
helpfulness and righting of
wrongs, but at this same time
China was enjoying an age of
progress. That nation produced
wonderful art treasures and in-
vented printing, gunpowder and
the compass among other things
which were passed on to the Oc-
cident. Some constructive ideas
came from the middle ages,
among them the unifying idea of
Christianity, the importance of the
common man and the impetus for

Quiet Ceremony Unites Young Business Man and Teacher

Congratulatory good wishes were
today being showered upon Mr.
and Mrs. Wilbur K. Getty follow-
ing the announcement of their
marriage yesterday. The cere-
mony was performed by the Rev.
W. L. H. Benton, rector of the
Church of the Messiah and was a
very quiet affair.

Mrs. Getty was Miss Isabel Dee
Grant, daughter of Mr. Alex Grant,
314 1/2 East Pine street, and has
been a valued member of the fac-
ulty of Jefferson school. Mr.
Getty is the son of Mr. and Mrs.
C. H. Getty, 622 North Parton
street. He is a member of the firm
of the G. and G. Metal Shop, 419
East Fourth street and is one of
the city's prominent young busi-
ness men.

The young people remain indefi-
nite in regard to honeymoon
plans, choosing to keep their plans
for the immediate future entirely
to themselves. However, they
hope to be in their own home ere
long as Mr. Getty is having a
pretty bungalow built on South
Parton street.

Athena Club

Once a year the faculty mem-
bers of the high school Athena
club put on a program for the
girls. Yesterday was that "once
a year" and the faculty program
was greatly enjoyed by the mem-
bers.

Spanish songs were sung by
Miss Ruth Frothingham, one of
the Spanish teachers, accompa-
nied by Miss Ruth Armstrong.

A comedy stunt, entitled
"Around the Clock with the High
School Co-ed" was put on by
Enid Twist and Mildred Paul and
brought many laughs from the
girls as they saw themselves as
others see them.

Miss Wickes, popular head of
the music department, played
three numbers and her hearers
expressed their admiration and
appreciation of her work with in-
sistent demands for encores.

Appearing for the first time be-
fore a high school audience here,
Eleanor Elliott read a group of
selections, some of which were of
her own composition and deligh-
ted the Athena Club members
who made her promise to come
again for a full program.

Miss Henry, faculty advisor,
then announced that the club
was about to celebrate President
Wilson's birthday with a big
white cake and White House
punch. The girls who were puz-
zled for just a minute, watched
the big birthday cake appear and
counted seventeen candles by
which they knew that the birth-
day party was for their Athena
president, Maxine Wilson.

learning started by Roger Bacon.
There followed the beginning of
international interest and poli-
cies.

Then appeared the democratic
ideal as a possibility as shown in
the successful revolt of the
American colonies and the found-
ing of a nation far from mon-
archy and state religion. This
French revolution was followed by
the reaction in form of monarchy.

At present the world has five
great problems for solution: first,
theory of property; second, ad-
justment of currency; third, the
theory of government; fourth, a plan
for world politics; fifth, a wise
system of education. The world
is being held back by two great
weaknesses, the decline of reli-
gion so that nations no longer ap-
ply its principles to their prob-
lems and overdeveloped national-
ism which causes perpetual hurts
in national pride.

Nutting Party Yields Enjoyment To Philathea Class

Walnuts, hickory nuts, hazel nuts
and plain nuts were all in evidence
at a hilarious party given Tuesday
evening by Miss Edith Walker to
her fellow members of the Phil-
athea of the First Baptist church.
Miss Walker, class president, had
an unusual number of original
stunts planned to follow the busi-
ness meeting which opened the eve-
ning. Every game and contest fea-
tured some kind of a nut. The
guests were divided into four
"nutty" groups and from each group
was demanded a "nutty" stunt.

These acts were highly entertain-
ing and consisted of a style show
with living models and amazing
wearing apparel; a hilarious scene
from grand opera; Noah's Ark in
pantomime even to the dove episode
and practically all the animals and
finally a scene from a kindergarten
which ended the series in a whirl-
wind of merriment.

Announcement of a "chicken din-
ner" for refreshments raised high
hopes among the guests until they
found it to be literally true. How-
ever the chicken feed was soon
supplanted by delicious refresh-
ments more enjoyed by human be-
ings even of the nut variety and
Miss Walker was voted a royal en-
tertainer.

Missionary Society

The Woman's Foreign Missions
society of the First M. E.
church, meeting Wednesday af-
ternoon was one of great profit
to the large number present. Mrs.
Horton Palmer brought a helpful
message on "Giving." Mrs. P.
A. Robinson, recently returned
from a trip to Europe, gave a
travel talk about Jerusalem—the
city of 70,000 Jews, Mohammed-
ans, Christians and other nation-
alities. She carried her hearers
to this far-away city with its nar-
row streets and high walls,
tombs and mosques, the church
of the Holy Sepulchre and tem-
ples. Her word pictures were
so clear one could imagine one-
self in this historical city amid
the surroundings of which we
have all read.

Mrs. Hurd, who has recently
arrived in Santa Ana from Mas-
sachusetts, sang a very beautiful
solo, "Come, Ye Blessed," by John
Prindle Scott. She was accom-
panied by her daughter, Miss Dor-
othy Hurd at the piano.

Mrs. Finn read a letter from
Miss Clara Cushman, founder of
the Standard Bearers who was
writing this last letter from
China to Mrs. Saunby before
leaving for America after com-
pleting many years' service in
China. Mrs. Avery then told a
story entitled "In a Zenana Car-
riage."

The new study book for the
year is "Building with India,"
the first chapter of which was
most ably given by Mrs. Mary
Stone and Mrs. Delmar French,
who told of the heritage of India,
its scenery, roads, art, mosques
and handicraft, its culture, music
and literature and its true na-
tionalism. Mrs. Stone showed a
beautifully carved box which had
been sent in 1869 to a friend by
Miss Isabella Thoburn, the first
Woman's Foreign Missionary to
India who with Dr. Clara Swain
arrived in India, January 7, 1869.
The box contained pressed flow-
ers from the Himalayas.

The "L-M-Nary" chapter on In-
dia, the first missionary field of
the Woman's Foreign Missionary
society was given by Mrs. W. L.
Miller, Mrs. Allie Fitz, and Mrs.
A. H. Theal who told of first
things in India. A box of beau-
tiful Chinese embroideries, the
property of Mrs. Ashmore, was
exhibited.

BARE LAND ROW AS FULLERTON CHIEFS SUED

Disclosing a battle over municipal affairs at Fullerton, R. T. Davies, believed to be acting on behalf of Chamber of Commerce committee of that city, today filed in superior court here a suit through which he will seek an order restraining the Fullerton trustees, F. C. Hezmalhalch, city clerk and Fred Fuller, city treasurer, from purchasing one and a third acres of land there for use as a site for a city barn.

In his complaint, which was prepared by Attorneys Marks and Launer, Fullerton, Davies asks the restraining order on the alleged grounds that W. A. Moore, one of the trustees who voted for the purchase, was owner of the land and therefore not entitled to vote.

Vote to Purchase
At the meeting of the trustees last Tuesday, the complaint asserted, the council voted to purchase the one and one-third acres, at \$4900 an acre, making a total cost of \$5719 for the plot. R. A. Marsden, Roy Davis and Moore voted in favor of the purchase, it was stated, while Mayor W. F. Coulter and L. P. Drake opposed it.

The tract on which the proposed site was located, was formerly owned by Henry George Meiser and his wife, Pauline, Amanda Meiser, the document set forth. On July 17, it was alleged, Moore, acting as a trustee, purchased the entire tract for more than \$10,000. He has not sold it, and is now owner in equity of the tract, the suit maintained.

Because of the alleged ownership by Moore, the complainants assert, the vote cast by him was illegal, and without his vote the transaction could not have been authorized.

Moore Makes Denial
Moore, in commenting on the case, denied that he was owner of the property at the time that the purchase was authorized by the city. He claimed that he acted merely as a mediator between the Meisers and the Salt Lake railroad, which, he says, owns the tract at the present time. He paid \$18,000 for the entire tract, when he purchased it for the railroad, and the latter paid him the same price. "At no time have I profited in any way in regard to this transaction," Moore asserted emphatically. "If the truth were known, it would be heard that I voted legally in the matter."

According to Moore, the whole question centers about the selection of a site for a city barn. A site formerly tentatively chosen, officials did not desire to erect a barn in a residential section, Moore declared, the one and one-third acres were chosen as an alternative.

It was this action which aroused the ire of the Chamber of Commerce officials, he declared. At a meeting of the Chamber of Commerce committees last night, Davies' action was approved by a rising vote.

\$4675 COMMISSIONS ASKED BY AGENT IN REAL ESTATE TRADE

Real estate commissions totaling \$4,675, alleged to be due on an exchange transaction between E. E. Vincent and E. L. Crawford, officials of the California National bank here, and Nelson McArthur, Riverside man, were sought in two suits filed in the superior court here today by Walter C. Rowell.

According to statements made by Rowell in the suits, he arranged a trade between the defendants in the two actions, whereby 100 acres near El Modena, worth \$65,000 and controlled by the Santa Ana men, would figure in an exchange for property in Riverside county, valued at \$28,500.

According to Rowell, he brought the parties together and arranged the exchange, thereby entitling himself to the usual commissions. In the suit against the Santa Ana men the commission was set at \$3,250, and on the Riverside property at \$1,425.

PRUNING STUDIED AT DEMONSTRATIONS IN CITRUS GROVE TODAY

Citrus pruning demonstrations were scheduled at San Juan Capistrano this afternoon, at the orchards of Roy Smith, W. R. Schoonover, of the Riverside experiment station, was to give the demonstrations.

"There is a large acreage at San Juan Capistrano that it is proposed to plant to citrus trees, and the demonstration this afternoon was intended to form the basis of pruning methods in the proposed orchards, as well as to check results on trees now planted in that district," H. E. Wahlberg, farm advisor, said prior to the demonstrations.

"It is the opinion of the Agricultural Extension service that moderate pruning accomplishes better results than heavy pruning. The trees should be pruned enough that air and light can enter the center of the tree, but for this result it is not necessary to slash the tree as some unadvised orchardists have done in the past."

"Allowing good ventilation and lighting the center of the tree tends to increase the number of fruit buds both inside and outside of the tree."

BIG COTTON MILL GAIN SEEN IN WEST

"The western coast of the United States will soon become one of the world's cotton manufacturing centers," Miss Henrietta Horton Kapp, representing a large furnishing house in Los Angeles, told junior college home economics and art students at the high school auditorium here yesterday afternoon.

"I believe also that the yucca plant, which is so plentiful on this coast, could be made into wonderful fibres," Miss Kapp continued in her discussion of "Textiles, and How to Use Them." Describing the various kinds of wool textiles, Miss Kapp called attention to the fact that there has never been enough wool to supply the needs of the world.

"The United States is the largest importer and manufacturer of silk in the world, but has never been able to produce its own silk," she said.

"Our great use of cotton has made dyes a necessity, and now the United States has dye making processes equal to those of Germany."

"We should use linen much more than we do." The talk was illustrated with the fabrics discussed, pleasing the girls because of the discussion on a helpful subject.

Miss Kapp came here through the efforts of Miss Bertha Stein, head of the home economics department in the high school.

DESERT WELLS NOT IN INCOME TAX, IS RULE

Many persons in Orange county were interested today in the decision from Washington that the cost of dry and unproductive wells in desert land, purchased with an idea that water might be developed upon the premises and the land made valuable, cannot be deducted as a necessary expense from an income tax return under the 1921 revenue act.

This decision is not intended to apply to the development of orchards, according to its interpretation by the Los Angeles collector.

DAMAGES ASKED AS AUTO CRASH RESULT

George E. Bradbury today filed damage suit in superior court here against J. M. Dillon, whom he blamed for an automobile accident on the Anaheim boulevard several weeks ago, in which Bradbury and his wife were injured.

The plaintiff's machine was damaged to the extent of \$300, he claimed. He paid \$100 for a physician's services, and \$100 for damaged clothing, he said. He sued for \$750.

Football Shoes. Hawleys.

Board Prepared to Shape Fair Plans

With the board organization yesterday, and the authorization of the president to appoint committees on finance, buildings and grounds, and racing and race track, the directors of the Orange County Fair association today were prepared actively to develop plans for the 1923 fair.

All members attended yesterday's meeting except W. B. Williams, cashier of the First National bank, and H. H. Dale.

The board will meet next Wednesday at 3:30 p. m. when it is expected the committees will be ready to report on investigations assigned to them. The directors will also visit the old fair grounds on South Bristol street at that time, to study location and formation of the grounds.

W. B. Williams was named president of the board. D. Eymann Huff, chairman of the 1922 fair committee, was elected vice president, and presided yesterday in the absence of Williams. R. D. Flaherty, secretary-treasurer, was chosen.

Board is Complete.
With the appointment of C. L. Crumrine, president of the Associated Chambers of Commerce and manager of the La Habra Citrus association, as the member-at-large, the board now consists of Williams,

Huff, Crumrine, H. H. Dale, S. H. Finley, Charles D. Spicer, Dr. J. R. Schofield, J. A. Smiley and Mrs. J. N. Bartholomew.

The procuring of funds to purchase the fair site on Bristol street, was conceded to be the most important of early actions, and the committee on finance was instructed to devote plans to obtain the necessary money to exercise options on the grounds.

Included in the duties of that committee will be consultation with the Santa Ana council, and the board of supervisors, with reference to each of the bodies providing funds for purchasing one half of the sixty and a fraction acres contained in the proposed site owned by Ernest Amling and Roy Vincent. The Amling tract is outside of the city limits, and it is expected the supervisors will purchase it. The Vincent land is inside of the city and the council will be asked to produce money for this.

In case of failure of negotiations with the city and county governing bodies, the committee would have to prepare other early plans for obtaining funds for the property.

Racing Is Issue.
With a committee of the old board recommending that racing be abandoned on the ground that it

is a liability, discussion yesterday centered around this point. Some of the directors believe that races are a valuable drawing card. Others expressed opposite opinions. Dr. Schofield declared that his observation of fairs in Nebraska had convinced him that racing was a "losing game," so far as operation in connection with a fair is concerned.

He asserted that in Nebraska at the time fairs were held in virtually every county of the state, farmers refused to prepare exhibits because it was necessary to pay race purses first of all the expenses. This resulted, he said, in leaving nothing with which to pay premiums for farm entries. The fairs, he said, eventually were killed.

It was suggested that the building and grounds committee have plans for improvement of the grounds drawn with provision to add units to the whole when all buildings and improvements are finally completed.

Williams announced that he would make public the personnel of the three committees tomorrow.

MANY GOLD CLAIMS STAKED
QUESNEL DAM, B. C., Nov. 16.—Many gold claims have been recorded within a radius of one mile of Quesnel Dam, and gold is being recovered from all. Prospectors who have spent the summer successfully prospecting the distant hills are rushing back here to get in on the new strikes which have taken place within the past two weeks. The Cedar Creek channel has been staked for five miles.

ANNUAL DINNER FOR NEWSBOYS IS ARRANGED

Figures indicative of the growth of the city's population were given today by the Ladies' Aid society of the First Christian church, in announcing the date of the newsboys' annual banquet, the night of December 28, in the basement of the church.

Plans will be made to accommodate more than 200 lads, marking a steady growth in numbers since the first banquet two years ago.

At the first banquet, held in 1920, 100 boys were served. In 1921 there were 169 lads, while this year the carriers and newsboys for the various papers published or sold in Santa Ana are as follows:

Santa Ana Register, 100; Santa Ana Daily News and Los Angeles Express, 33; Los Angeles Times, 25; Los Angeles Examiner, 25; Los Angeles Herald, 16 and Los Angeles Record, 1.

It is estimated that the earth can support a population of 6,000,000,000, a total which, it is further estimated, will be reached about 2100 at the present rate of increase.

WORK ON JOINT SEWER TO BE STARTED IN TEN DAYS

If You Want 'Em To Come Just Send Them The Register

Emporia, Kans., Nov. 4, 1922. The Register Publishing Company, Santa Ana, Calif. Gentlemen:

For several months during 1921 I was a reader of The Register and enjoyed it very much. I discontinued it for the reason that I found that it was going to be impossible for me to make the move to California for sometime. I have never given up the idea of becoming a citizen of your great state and I believe that it will be possible for me to make the move in the near future.

In order to become better acquainted with general conditions in your part of the state I am going to ask you to send me The Register again. Give me the subscription rate by the month and by the quarter and I will send you my check for whatever time I wish to have the paper sent to me. Yours very truly, ARTHUR NIXON, P. O. Box 552, Emporia, Kans.

Right-of-way Acquisition Only Bar to Procedure With Work

HEARING TOMORROW

Contractor Ready to Begin; Cash on Hand for Needed Land

With Clyde Bishop, special city counsel, preparing today to go into court here tomorrow and show proof of the amount of money necessary to pay for the rights of way needed for the joint outfall sewer to be constructed by the cities of Santa Ana, Orange, Anaheim and Fullerton, and with Joe Chutuk, Los Angeles contractor, ready to begin work, it was expected work on the big joint sewer would begin within ten days.

Specifications Given.

Chutuk has been awarded the contract on his bid of \$138,845 for the installation of the 42-inch vitrified pipe, to be built under the segmental block system. The pipe is to be laid a distance of 22,100 feet from the treatment plant, to be situated immediately west of the Santa Ana river, and a few hundred feet south of the Talbert road. Iron pipe will be used in carrying sewage into the ocean.

The legal proceedings tomorrow center around Bishop's submission to the court of facts that he has cash available to pay for pieces of ground needed for the right of way. If the proof is held satisfactory, jurisdiction over the right of way will be acquired and work may start at once, according

(Continued on Page 8.)

TRUNK MAKING IS S. A. NEW INDUSTRY

Santa Ana has a new industry in the Santa Ana Trunk Factory, which has been established at 413 East Fourth street by L. P. Nonesmaker, a luggage maker of twenty-two years' experience. For the past eight years Nonesmaker had been with one of Los Angeles' large luggage manufacturers. He has had the benefit of broad training in many of the leading plants of the country.

The new trunk factory will make a specialty of automobile trunks, a line which it is expected will develop a large volume of business in this section. Every phase of luggage making will be handled. The best materials and highest grade of workmanship will mark every article produced.

RICHARDSON IS FAIRVIEW LAND INVITED HERE BY REALTORS JUMPS DUE TO OIL OUTLOOK

Governor-elect Scheduled to Address Convention in S. A. In December

Governor-Elect Friend W. Richardson will be one of the speakers on the opening day of the state convention of the California Real Estate association in Santa Ana, if he accepts an invitation extended to him by C. G. C. Tatum, president. It became known here today, following receipt of such advice from Glenn D. Willaman, secretary. At the same time, J. C. Wallace, secretary of the Santa Ana Realty board, announced that Henry Barbour, president of the Long Beach board and winner of the Fred Reed cup in the "home town" contest at Oakland last January, will be a guest of the local board at its luncheon at St. Ann's inn here at 12:15 p. m. tomorrow.

Barbour has been ill for the past six months and at one time his life was despaired of. His appearance here will be his first public appearance since he became ill.

Open to Public

The contest is one in which representatives have five minutes to tell the fine points of their home cities. It will be held in the Yost theater and will be open to the public. It is one of the most interesting of the many features of the annual session of state realtors.

Elimination contests have been held by many boards and five-minute speakers have been chosen. Homer C. Kate will represent Bakersfield, Oscar Hilton, Huntington Park; W. F. Down, San Diego; and Senator W. F. Price, Santa Rosa. Speakers for other cities have been selected, but their names have not been sent to the secretary.

Expect 100 Boards

With ninety-four boards identified with the state association, officials of the organization are working rapidly in an effort to have 100 boards before the convention here three weeks hence, according to Willaman.

That land values in the Fairview section are jumping as the result of oil development possibilities, was disclosed here today when it was announced that W. A. Babb had sold a ten-acre section of his tract near Fairview at \$2000 an acre.

The name of the purchaser was not ascertained, but the purchase was said to have been made because of the land being situated in the supposed oil area. Babb last week sold fifteen acres to Henley Ellis at \$1050 an acre and later another tract of ten acres to J. C. Alexander for the same price.

This week's sale, at \$2000, an advance of \$250 an acre, is said to have been entirely the result of favorable indications obtaining in the well of the Fairview Oil company, which is boring about a mile west of Fairview proper. The company expected to bring in the well last week but water interference made it necessary to drill somewhat deeper in preparation for re-commencing.

It was declared here that it probably would be two or three weeks before an attempt would be made to bring in the well.

Men identified with the oil operation, it is said, are confident that a good producer will result. It was declared that a number of groups of Santa Ana men who purchased property in the district six or eight months ago have refused offers of as high as \$3000 an acre for holdings purchased at \$600 an acre.

Among the Santa Anans interested are Charles Cotant and John Knox, who purchased six acres of W. A. Strong; William Armstrong, Tony Borchard and Eugene Grisest, who paid \$600 an acre for eighteen acres of the LeRoy Baird tract; C. R. Ward and others who bought ten acres of Baird, and Lew H. Wallace, Ed Farnsworth, William Diers, Judge R. Y. Williams and others who bought twenty acres of the old town site of Fairview, where the hotel was situated.

According to Farnsworth, an oil company representative was to see him yesterday in an effort to secure an oil lease on the twenty acres.

MALPRACTICE CASE TRIAL CONTINUES

Additional testimony was being taken today in the court of Judge Myers, Los Angeles, in the case of H. R. Vaughan, Orange, who is suing Dr. E. H. Thompson of Burbank for \$30,000 for alleged malpractice for a motorcycle accident in Burbank last January, was removed to Dr. Thompson's hospital, where, he asserts, his left arm was disabled by reason of the failure of Dr. Thompson to properly set a broken bone.

According to Edward H. Vaughan, father of the complainant, it was found that the ends of the broken bone had overlapped and had grown together. This, it is claimed, necessitated an operation by another surgeon. The second operation failed to improve the condition of Vaughan's arm, it is asserted, and the damage suit followed.

The complaint states that the young man's left arm was left "distorted and helpless."

James noonday luncheon.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to stack up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like, 15c and 30c.—Adv.

Looking Backward Reveals Enormous Strides By City

Looking backward to some definite date is a method of proving Santa Ana's future.

By looking backward, one can find that Santa Ana real estate has grown in value steadily for years, and that real estate is one of the best investments one can enter into.

The peep into the past afforded by The Register's "In The Long Ago" column of its editorial page is often provocative of valuable thought. For instance, a few days ago the column told of the sale fourteen years ago of a part of a lot on Main street opposite the Odd Fellows' building. That same lot could not be bought today for several times what was paid for it fourteen years ago.

According to the "In The Long Ago" column, the assessed valuation of Orange county in 1903 was \$17,000,000. Today it is approximately \$150,000,000.

Without a doubt, the assessed valuation in 1923 will go beyond that of 1922.

What will be the assessed valuation ten years from now?

What will be the value ten years from now of any piece of property that one may pick out?

Of course, no answer can be given; that is, no definite answer. In general, one can say with the utmost confidence that the value ten years from now of any piece of property in this county will be considerably more than it is now. There is no possibility of slipping back in valuation.

BETTER METHODS OF TILLAGE STUDY AIM OF SURVEY NOW ON

Comparative results of deep and shallow tillage methods will be brought before the citrus growers of Orange county by a survey now being prepared by H. E. Wahlberg, farm advisor, he said today.

Citrus growers of Santa Ana and vicinity are checking results of their respective methods of soil cultivation, Wahlberg added. "Some have been using the deep method of plowing and claim that the method is conducive to vigorous trees and high production. Others have used a fairly shallow method of cultivation and have accomplished good results."

"It is the intent of this survey to check effects of both methods, and to ascertain the amount of moisture required by the trees in both cases."

"Public demonstrations of tillage methods probably will be held at a later date."

RAILROAD AIDS CAMPING TO BOOST STATE

The attention of 150,000 prosperous farmers in the Middle West will be called to California through a series of letters which the Santa Fe Railroad company has prepared inviting them to join the thousands who are now locating in California annually, according to announcement made here today by F. T. Smith, Santa Ana agent for the railroad company.

The letters are printed on stationery carrying pictures of typical "arming scenes in California."

"Why Not a Farm in California?" reads a portion of the first letter sent out to 30,000 Middle West farmers.

Continuing, it says: "The Farmers of California are well organized. Every crop is marketed through a co-operative organization, owned and controlled by the growers. They are prosperous, as evidenced by the many modern country homes."

"Farming in California no longer is an experiment. It is just as certain as (and more so), than the growing of wheat and corn in the Middle West, and with virtually no outside competition."

"Beside working under the most favorable conditions, the all-the-year-around outdoor life is attractive for old and young. Mountains and the seashore are within easy reach by auto over thousands of miles of paved highway. Is it any wonder that thousands of people visit California every year, and that many of them stay and make their homes?"

Advising that the Santa Fe has no land to sell, the letter urges recipients to write the company for unbiased information about any section of the state.

CITIZENS PRAISED BY LEGION FOR AID IN ARMISTICE FETE

Declaring that the co-operation of Orange county citizens made possible "one of the greatest Armistice day celebrations in the history of the county," Fullerton Post No. 142 today was on record with resolutions warmly commending those who contributed to the success of the monster parade staged there.

The celebration was an unqualified success, officers of the post pointed out, but this was made possible only by the wholehearted and united support of the many organizations in the county.

It was ordered that the resolutions of thanks be spread upon the minutes of the Fullerton post and sent to all newspapers published in Orange county.

FIGURES OF L. A. EXPERT READY TO BE GIVEN U. S. ENGINEER AT S. A. HEARING

Back of Orange county's harbor, there are in this county and in Riverside and San Bernardino counties, these resources: A population of 170,000, a land area of 18,000,000 acres and an annual production valued at \$154,000,000.

Gregory M. Creutz, a statistician of Los Angeles, has set forth these facts in a report which he has submitted to the Orange county harbor commission and which will in turn be submitted to Major E. D. Ardery, war department engineer, at the harbor meeting of which he is to have charge at the city hall here next Wednesday at 10 a. m., Linn L. Shaw, commission chairman, announced today.

At the same time, Shaw disclosed that plans for the organizing of the Orange County Terminal and Navigation corporation were proceeding.

With the harbor improvements under county bonds nearing completion, plans, held more or less in abeyance because harbor work was still in progress, are now being made for making the corporation a functioning body, Shaw stated.

It is the purpose of the organization to build docks on the county channel. A lease will be taken on thirty acres of ground owned by James Irvine, immediately adjoining on the east the county property of 1500 feet frontage on the channel.

The corporation proposes to engage in activities that will develop commerce for the harbor, Shaw said.

The Los Angeles Chamber of Commerce has employed Creutz at various times to gather statistics on resources available to Los Angeles harbor. He is conceded to be one of the most competent and thorough men in this line of work in the Southland, it was stated.

The data he has gathered pertaining to territory, products, saving by shipping through Newport harbor and other information has surprised even the most ardent boosters of the harbor project, according to Shaw. It is his opinion that with exporters and importers of Orange, Riverside and San Bernardino counties availing themselves of the full transportation that could be made available at the harbor, a minimum saving of \$100,962 could be made annually with a possible maximum of \$515,040.

Tells Big Saving

He has based his maximum saving figures on the potential saving shown by comparison of freight costs via Los Angeles harbor with truck costs via Newport harbor. Summarized, they are as follows: Lumber, \$113,583.00; oil well casing, \$61,172.96; iron pipe, \$7,608.00; citrus fruits, \$39,235; beans, \$6,668.39; fertilizer, \$3,773.00; oil, \$283.000.

He says in his report "that it is very possible that, even with the production (oil) localized where it now is, capital might be induced to establish a refinery at Newport harbor, especially considering the lower costs for purchasing refinery sites."

He recites that the county production of oil is approximately 19,000,000 barrels a year, of which 17,000,000 barrels is produced in the northern part of the county. He says that if the latter amount were divided equally between two companies, with one having a pipeline to and a refinery at Newport harbor and the other similar equipment at Los Angeles harbor, the local concern would have an advantage of \$95,000 annually over

(Continued on Page 8.)

S. A. HEIGHTS WATER SYSTEM COMPLETED

Santa Ana Heights, one of the largest local subdivisions, now has in operation a complete water system which will compare favorably with a great many city plants, it was stated here today.

Water was turned into four miles of pipe last week. Two artesian wells form the source of supply while the pumping station is equipped with a big Byron-Jackson booster pump, such as is used by various municipalities.

A steel tank with a capacity of 500,000 gallons and representing an expenditure of \$5,000 to the subdividers has been erected for a reservoir.

William McCoy, who, with Bryan and Bradford, controls this property, is on the ground, personally supervising all improvements. He reports that work is being rushed on five miles of paved streets, sidewalks and curbing. The next ten days will witness the initial pouring of concrete for one and one-half miles of cement walk on the Newport road front of the subdivision.

Santa Ana Heights was opened on July 1, last, and since that time more than \$50,000 has been invested in improvements, according to McCoy. He said seventy per cent of the property, which originally consisted of 310 acres, has been disposed of. Five houses are now under construction and a like number will be begun before the end of this month. It is expected that 100 acres of orchard will be planted this winter.

Care of the Eyes

BY DR. ROY S. HORTON

OP-TOM-ETRIST

Why Eyes Should Be EXAMINED

In traveling by rail you have often observed that at every division point men come down alongside the cars with flashing torches and a hammer and carefully inspect the trucks and wheels for imperfections and weakness that may have developed. These are precautions taken for your safety.

Every so often as a safety measure it is wise for every man and woman to visit a competent professional man and have their eyes examined.

Your eyes may be weakening so gradually, so imperceptibly when measured from day to day that you do not recognize the fact.

But the optometrist will recognize it in making an examination. If your eyes are weakening you should wear glasses—glasses that will exactly fit your individual needs.

They will enable you to secure better vision, add to your comfort and prolong the natural powers of your eyes. THE MORE USUAL METHOD of testing the sight by printed matter in small type is shown and explained in this paragraph:

TESTING YOUR OWN SIGHT

"Persons having normal vision will be able to read this print at a distance of 14 inches from the eye with ease and comfort, also will be able to read it with each eye separately. If unable to do so, your eyes are defective and should have immediate attention. The lenses sold in the cheap goods are of unequal density and have imperfectly formed surfaces. Continued use of these poorer lenses will result in positive injury from the constant strain upon the muscles of accommodation to supply the defects in the glass."

PHONE 868 212 SPURGEON BUILDING SANTA ANA

"THE EYES HAVE IT"

The high cost of cheap homes--

When You Get to the End of Your Rope, Tie a Knot in it and Hang on.

By "cheap" we do not refer to the low priced HOME, the \$15,000 house can be classed "cheap" if you fail to recognize the importance and value of good material and good construction in your building, or assume that the standards of construction of all builders is the same and that the construction of your HOME at whatever cost and by whatever standard will be thorough and efficient is unfair to yourself and to the builder who wants to do only honest work. Your lowest bidder may not be figuring on the kind of construction you want in your HOME.

Through right construction practice, the lumber that goes into the building renders even greater service. That is why we are especially interested in good construction. We want our lumber to deliver the greatest possible value.

Enduring Protection

Against Concrete's Most Destructive Forces

For years in the construction of sewerage projects, steel, iron, wood and ordinary concrete have, each in their turn, fallen prey to obnoxious gasses and corroding fluids. These decimating forces seemed beyond control until the introduction of concrete made with—

MONOLITH

PLASTIC WATERPROOF PORTLAND CEMENT

Disintegrating elements of air, water and soil have no effect upon concrete made of Monolith Plastic Waterproof Portland Cement. Because it is positively waterproof, sewerage acids and moisture cannot penetrate its structure. The two dominant virtues of Monolith — plasticity and waterproofness—are ground into every atom during the process of manufacture.

Remember, Monolith is not a substitute. It is a Portland cement of the highest quality with the added virtues of plasticity and waterproofness.

It Takes More Than Honesty To Make A Realtor

Honesty—integrity—are prime requirements of any man who would be a REALTOR, but the requirements do not stop there.

Experience and training are also necessary if a REALTOR is to be of the utmost service to his community.

It isn't enough that a REALTOR have good intentions — he must also have the knowledge and ability to MAKE GOOD.

You can rely not only upon the integrity of the members of the Santa Ana Realty Board, but also upon their ability to handle your transactions RIGHT.

BIG RESOURCES BACK OF PORT BARED HERE

(Continued from Page 7.)

its competitor, to say nothing of a saving of 5-23 cents a barrel on the Huntington Beach oil field production delivered at Newport instead of Los Angeles harbor.

Cites Bean Saving

Based on 50 per cent of the bean crop grown on the Irvine ranch and close to Santa Ana being shipped by water, the statistician estimates that on this crop alone, for the territory mentioned, an annual saving of approximately \$6683 could be made and that this amount would be materially increased if a similar proportion of the production of other bean growing sections in the county and in Riverside and San Bernardino counties were sent to market via Newport.

Declaring that there is every indication that probably in the not far distant future 50 per cent of the citrus crops of the three counties will be moved by water, with all water shipments going either to Los Angeles or Newport harbors by truck, Creutz estimates that \$39,235 would be saved by shipping through Newport.

As between points in the three counties and the two harbors, he deducts that there is an average saving of 16.5 miles by delivery at Newport Beach.

As To Lumber

Touching on importation of lumber the report says that "summing up the lumber movement, the potential savings in favor of Newport harbor, as shown by a comparison of truck transportation costs from both Newport and Los Angeles harbors, is \$43,678, and, as shown by a comparison of truck transportation costs from Newport harbor with present railroad rates from Los Angeles harbor there is a potential saving in favor of Newport of \$113,585.

"The lumber movement is one of the greatest importance to Newport. The building activity in Orange, Riverside and San Bernardino counties has produced, and probably will continue to produce in the future, a heavy demand for lumber. The sources of lumber are, in general, near the seaboard, virtually all shipments originating in Oregon, Washington and Northern California. The importance of the lumber movement is readily seen from the fact that lumber constitutes 80 per cent of the in bound coastwise tonnage of Los Angeles and 60 per cent of all the in bound tonnage of all sources.

Tells Other Facts

"Other facts which lend themselves to making Newport harbor a potential lumber port are these: "The fact that lumber, being non-perishable, may move at any season of the year; lumber schooners coming down the coast may discharge their entire cargo at Newport, or they can usually, discharge part of their cargo at Redondo, Los Angeles and then at Newport without a material loss of time or extra expense; the fact that rates, almost without exception, are the same from Oregon, Washington and Northern California points to Los Angeles harbor, San Diego and other Southern California ports now receiving lumber, and hence would receive the same rate."

WETS PUZZLED OVER JAZZY CELEBRATION OF DRY LAW VICTORY

LOS ANGELES, Nov. 16.—Proponents of the Wright prohibition enforcement act last night held a dry spree in the Philharmonic auditorium, celebrating the passage of the state law.

About 3,000 persons attended the meeting, which was featured by speeches of various dry leaders. Without artificial stimulant one speaker recited a poem and the auditorium shook time and again with unaltered cheers. Disgruntled wets passing by couldn't figure how they did it.

BUREAU DRIVE FOR MEMBERS NETS MANY

"Within two days, two members of the membership committee of West Orange brought nineteen new members into the Orange county farm bureau," R. D. Flaherty, secretary-manager of the bureau, said today, as first report of results of the present membership campaign in the first district, composed of the communities south of the Santa Ana river.

"We expect to procure 200 new members in this district before the campaign closes here this week," said Flaherty, who added that it was Dr. John Adams and H. J. Helmdrick who enrolled the nineteen new members in forty-eight hours.

Reports of other committees have not been received.

Yorba Linda begins its competitive two-section campaign for members today. It is reported that the mails already are bringing applications from new members in that section.

Flaherty today was to meet the committees at Anaheim, Fullerton, La Habra and Buena Park preparatory to opening the membership drive in that district next week.

WORK ON JOINT SEWER TO BE STARTED

(Continued from Page 7.)

to the plans.

Hearings in Plan.

Should the appraisal set on each piece not be satisfactory to the property owners, testimony will be taken later and adjustment made.

In the co-operative action with the four cities, it is understood that Anaheim and Fullerton probably will not begin laying

mains to the treatment plant until after January 1.

Under present plans the city of Orange is to connect with the line from Anaheim and Fullerton. Surveys have been made, and it is understood that the Orange line will connect with the line from the north, at a point north of the Santa Ana river, and near Garden Grove.

N. MAIN ST. HOUSE SOLD FOR \$10,500

Mr. and Mrs. Howard Timmons have sold their house at 2059 North Main street to E. R. Roehm and today were making preparations for vacating the latter part of this week. The consideration was re-

ported at \$10,500, Timmons accepting as part of the consideration a lot 65 by 100 feet on the northeast corner of Seventeenth street and Broadway at \$4500. Timmons said that he did not contemplate building a residence on the corner.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

You Can Buy a Choice Lot in Santa Ana's Best Residential Section for \$1,000 to \$2,750

(With All Modern Improvements Paid For)

Here's the Whole Story:

—On French Street, between 15th and 17th streets, is the splendid property known as the Dresser Tract. This is divided into a number of choice lots—large lots—with the best of soil, and on each lot there are a number of bearing walnut trees.

—This tract is surrounded by some of the finest homes and the best people of the town. The streets are paved with six inch paving. All modern improvements go with the lots, and all improvements are paid for.

—This property has NEVER CHANGED HANDS but once since the Spanish Grant. The prices are away down low, considering the surroundings and the character of the improvements. \$1,000 to \$2,750 buys the lots. Very reasonable terms are available.

—Building restrictions protect the buyers against inferior improvements, and buildings.

—This is the only available property left in this section of Santa Ana. School, churches and supplies are within a block or two of the property. There is absolutely no undesirable feature. See us at once if you want a good investment or a place to build a home.

Your Boy's Future depends on his home training

One of the most pathetic figures in all literature is that depicted by Edward Everett Hale in his book, "A Man Without A Country." A wanderer, an outcast, who had no real mission in life, no loved ones to share his sorrows and happiness; his entire time was devoted to travel; he was a familiar figure in all lands yet when sickness and old age visited him he died an outcast on board ship because he was a Man Without A Country.

To what extent was that man's parents to blame for his blighted life—surely he lacked home training and the careful watchful companionship of a real mother and father and home.

Just how are you rearing your boy and what advantages are you giving him?

WANTED—Boy for office or delivery work; one living at home preferred.

How often has your attention been called to advertisements like this and many times even stronger "Must live at home."

Business men everywhere recognize the marked ability—progressiveness, honesty, courteous home-trained boy, and their services are eagerly sought after. It is in the early years of youth that home environments play an all important part in forming habits that make for success or failure and it is in homes owned by parents, permanent residences that more is done to instill successful thoughts, as it is the constant changing from one neighborhood to another, forming new playmates and associates that breeds discontent, disloyalty, bad manners, lying, stealing, profanity and immorality. All of these things the business men of today understand fully.

The boy who lives at home is led to possess a genuine pride in that home, as he helps father and mother improve it. He busies himself at many odd jobs around the house, keeps the lawn cut and the flower garden free from weeds and he can indulge in many pleasant tasks all of which brings joys to his heart and creates confidence, ability, determination and stick-to-it-iveness, giving him a rightful pride in his surroundings, encourages development and builds up an inventive mind.

The boy who lives at home learns courtesy and politeness as he is thrown in contact with mother and sisters daily. Courtesy is one of the essentials of business and every walk of life. A certain large mercantile house has this motto posted around the establishment for its employees: "Listen, agree, oblige." This is one of the hardest lessons for most workers to learn. The "home boy" knows and observes it long before he is ready for actual business. Your boy's future depends on the way he attacks life's problems. **IF HE IS RAISED IN A REAL HOME HE WILL BE HONEST, MORAL, INVENTIVE, PROUD OF HIS ABILITY, COURTEOUS AND ACCOMMODATING — AND THAT WILL SURELY SPELL SUCCESS FOR HIM.**

Yes there is one more thought to this little talk—a real home? Have YOU provided a place where your Boy or Girl can grow up, shielded from evil and encouraged to do right and make themselves efficient? If not, when are you planning to Build one? Wouldn't this be an ideal time to make a start? There will be no better time in your life to provide a home for your loved ones than NOW.

The following progressive organizations, firms and individuals are interested in making this city an ideal spot for boys by having every lad in his parents' own home. They recommend earnestly that you join with them in this endeavor by buying or building your home, thus helping yourself, your boy and your city. The services of competent designers have been retained to aid you—why not investigate today. Address all inquiries to "Home Building Editor," care of this paper.

Right here in this city where you live there are progressive firms and individuals who are interested in your future. They wish to see you succeed and have spent their own cash in order to put before you the desirability of acquiring your own home. They have retained the services of experts who will give you advice how to proceed. Some of these friends are named below. Write for information at once—don't delay a day—addressing your inquiry to "Home Building Editor," care this paper.

MINISTERS END WAR AGAINST WOOLWINE

(United Press Leased Wire)

LOS ANGELES, Nov. 16. — Church and temporal authorities battled to a standstill in the grand jury rooms here yesterday, it appeared today.

Ministers and civic workers, who had criticized District Attorney Woolwine agreed to suspend all action for his recall, while no action against them will be taken apparently.

In a caustic statement issued after the session, the ministers announced abandonment of their move to oust Woolwine, declaring "we have not modified our interest in enforcement of the law, nor have we been terrified by the district attorney's high handed procedure."

"We have noted his statement in the press that his intention to resign was reconsidered because announcement of the recall movement would have forced him to resign under fire," said the statement. "We therefore gladly withdraw all efforts to recall the district attorney that he may proceed without embarrassment with the resignation contemplated."

Those summoned to the hearing included the Rev. James Francis, the Rev. Ray Harker, the Rev. Edward F. Daugherty, Dean William MacCormack, the Rev. Gustave Briggles, the Rev. S. T. Montgomery, the Rev. E. P. Shuler, the Rev. Herbert Booth Smith, and Mrs. Dora Stearns of the Citizens Anti-Crime committee.

Woolwine declared that the summons was not made to intimidate the pastors, but to permit them to present any charges against him to the grand jury.

'Y' GIRLS SEEK TO UNRAVEL MYSTERIES OF WORLD IN TALKS

"What's inside of the earth?"
"What can I do so that I can travel?"

"What and why is the Y?"
These are some of the questions suggested today by girls of the Y. W. C. A. as topics for discussion in their newly organized discussion group. One of the functions of the Y. W. C. A. is to organize groups of girls with a view to providing answers to puzzling questions.

For the first time this season, the group met last night at the home of Miss Jennie Lasby, of the junior college faculty.

Miss Lasby is one of the association advisors and is back of every movement for the association's development. She will act as advisor to the discussion group, of which Edith Plavan will be official leader, it was announced following the meeting.

The topic for discussion at the meeting next Wednesday evening, will be, "What and Why is the Y?" and "What Opportunities Do the Association Work Offer as a Vocational Opening?"

Edith Plavan will lead the discussion on the first question, and Ruth Goodrich on the second.

STUDENT BODY HELD FACTOR 'FOR GOOD'

More than sixty junior college girls and a dozen teachers gathered in the junior college girls' room late yesterday for luncheon and to hear Miss Katharine Springborg, chairman of the student council of the Y. W. C. A., for the Asilomar (Pacific coast) division, speak.

"Your student association is more than a campus activity," Miss Springborg declared. "It is a vital part of a great world movement for progress, and for good."

Emphasizing the individual importance of the associations in national and world work, Miss Springborg told the local members some of the things which are being done by the international Y. W. C. A. She spoke of the work in foreign countries, the immigration work in the United States, the work with industrial girls, the city associations and the student work.

Last year's president of the student association of the University of California with a membership of 1500 girls, Miss Springborg is now secretary of the student association of the San Jose Normal school.

She informed the girls that their own secretary, Miss Isabel Anderson, had been elected at the last Asilomar conference to membership on the division council, making her one of the three alumni members of the council.

3-DAY REVIVAL IS BRETHREN CHURCH AIM

Plans of the Church of the Brethren, corner First and Lacy streets, to conduct revival meetings on November 17, 18 and 19, became known today with announcement of a partial program of events and discussions.

The hope is to arouse a general interest in keener effort to save souls through personal work and the usual church activities," one of the promoters of the revival said today.

The program follows:
Theme, "Fishing for Men." Text, "Fear not; from henceforth thou shalt catch men." Lu. 5:10.

Friday evening, 7:30—"The Call to Be Fishermen," J. B. Emmert.

Saturday afternoon, 2:30, devotions; 2:45, "The Fish;" 3:05, "The Tackle;" Frantz Lehmer; 3:25, "Washing the Nets;" Elder A. C. Snowberger; 3:45, "Put out into the Deep;" Elder George C. Carl; 4:10, closing devotions.

Saturday evening, 7:30, devotional services; 7:45, "Let Down the Nets;" Elder George W. Hilton; 8:05, "Tolled All Night and Took Nothing;" 8:25, "I will make you become fishers of men;" closing devotions.

Sunday morning, 9:45, Sunday school; 11, sermon, "The Nets Were Breaking;" J. B. Emmert.

Sunday afternoon, 2:30, devotional services; 2:50, "They Beckoned unto their Partners;" Elder D. W. Crist; 3:10, "They Filled both Boats;" Cline Wolford; 3:30, "The Fish which ye have taken;" J. B. Emmert; closing devotions.

Sunday evening, 6, Christian workers' meeting; 7, "A Sermon of Worship;" 7:15, address, "I Go a Fishing;" J. B. Emmert; 7:35, responses, "We also come with thee," volunteers.

Decision to proceed with plans to hold the cooked food sale at the Charles Te Winkle Hardware store here Saturday, under the auspices of the Friday Afternoon club, was announced here today, with a call to all members to not fail to donate articles for sale.

The sale is for the purpose of adding to the fund for the proposed clubhouse for the organization.

The regular meeting of the club will be held this week at the home of Mr. Roberts, corner Fourteenth and Santa Ana streets, it was announced.

DECLARES HARDING ADMITS CHANGE IN DRY LAW SENTIMENT

NEW YORK, Nov. 16.—President Harding, in a letter to Mrs. Corinne Roosevelt Robinson, foresees a "liberalizing of the prohibition enforcement act," according to Mrs. Robinson's interpretation. She read the letter to members of the Republican Neighborhood association last evening, but refused to show it to reporters who were present.

Mrs. Robinson told members of the association that the president had written her that he did not expect the amendment to be abolished, but that "undoubtedly the public mind was shifting somewhat in regard to prohibition enforcement."

We rent Fords, Dodges and Buicks as low as \$2.00 and \$3.00 per day. Owl Taxi, 411 N. Sycamore. Phone 1486.

Studebaker

No motor car is more satisfactory!

Made of the best materials the market affords, under most precise standards of workmanship, the Studebaker Big-Six Touring Car is the outstanding value among fine cars.

It is a roomy, seven-passenger car but is not bulky. And it does not carry an ounce of excess weight.

The 60-horsepower motor provides speed, stamina, flexibility and power in abundance.

Comfort is insured by correct design, long, semi-elliptic springs, restful nine-inch seat cushions and shock absorbers.

The body lines are distinctive, and the equipment includes many motoring refinements such as the one-piece windshield, tool pocket in left front door and the courtesy light on the driver's side which illuminates the roadway in passing cars at night.

At \$2040 it represents a large saving over cars that do not even approach it in intrinsic value. And it is economical to drive and possesses high resale value.

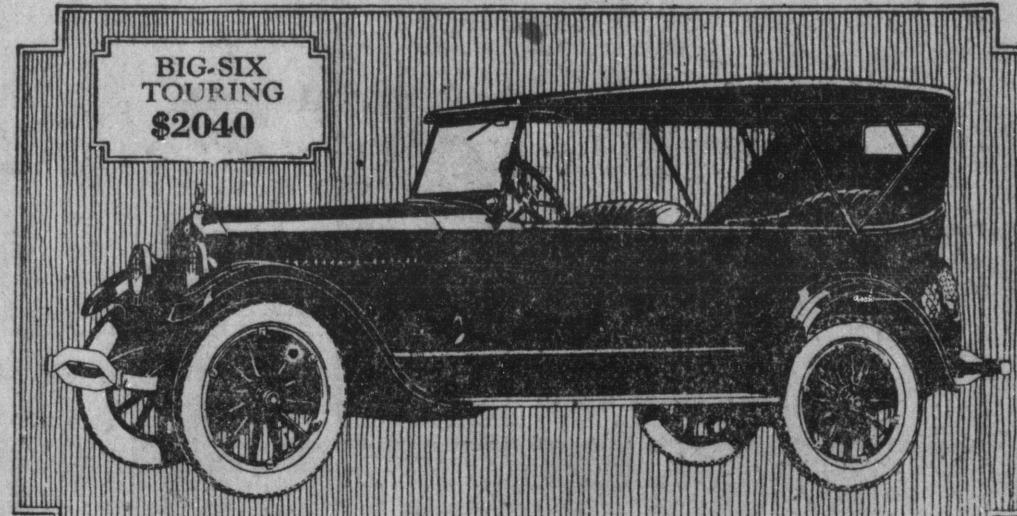

The body, like the chassis, is built in Studebaker plants, which eliminates middlemen's profits. The savings resulting are passed along to you.

The Big-Six is a wonderful motor car! It well sustains the 70-year Studebaker reputation for business integrity and honest value.

THE RUCKSTELL TWO SPEED AXLE gives the Ford car an intermediate, noiseless gear for traffic and hill climbing. An emergency low for heavy pulling. A quick pick up. A positive, rapid shift. A 20% higher road speed if desired.

What You Add
in comfort-utility and speed by equipping YOUR FORD with a RUCKSTELL 2 SPEED AXLE

WHAT YOU SAVE
in operating economy

BY the correct application of power, obtained, through the gear changes provided by the Ruckstell Two Speed Axle, the Ford car is given four forward speeds with which to meet every demand of road and load.

This is comfort and driving utility greatly increased.

By the installation of 3 1/2 to 1 gears in conjunction with the Ruckstell Two Speed Axle, 20% higher road speed is obtained.

Through reducing engine revolutions on hills, in traffic, and on the open road, oil and gas are saved, and wear on all moving parts is reduced to a minimum.

TEACHERS CHUCKLE AS THEY KEEP ACTS FOR TONIGHT SECRET

No activity among city school teachers has caused as much excitement and fun as was said today to be manifested in the plans for the City Teachers' league meeting tonight in the high school gymnasium.

Thirteen acts are to be on the comedy bill of the meeting, President Edward Hummel, of the high school faculty, said.

"If one is in doubt about women's ability to keep a secret it would be interesting to try to learn what the stunts on tonight's program are to be," Hummel declared. "The teachers are exploding all theories about secrets and the mystery will continue to baffle the curious until the stunts are put on tonight."

FIND MISSING LINK IN SOUTH SEA TREES

(United Press Leased Wire)
SAN FRANCISCO, Nov. 16.—Stories of a tribe of humans with tails like monkeys, who live in tree tops and are afraid of men, were brought here today by Wanda Helbig, wife of Captain John Helbig, of the South Sea trading schooner Eclipse.

They live on the island of Palawan, north of Borneo, she said.

"They are peaceful and child-like," Mrs. Helbig declared, "but very ugly to look at."

"The married women black their teeth to distinguish them from the unmarried."

MAN SUED IN CRASH CASE FIGHTS BACK, IN TURN ASKS BALM

A cross complaint through which the defendant will seek \$794.75 damages was contained in an answer filed in superior court here today by E. C. Woodruff, of Long Beach, whom C. G. Illingworth sued to recover damages alleged to have resulted from an accident in Santa Ana canyon several months ago, in connection with which Woodruff stood trial in the local courts on a charge of driving an automobile while intoxicated.

Woodruff, denying that he was on the left side of the road, asserted that the collision was due to the carelessness of the plaintiff. He sued for \$234.75 damages, \$250 for use of a truck, and \$250 depreciation resulting from the damage.

Illingworth in his suit asked \$1,096.90 damages.

The jury at Woodruff's trial disagreed. When the case came up for retrial it was continued. It is now pending.

FINDS LIGHT ERROR AS VOTE COUNT MADE

Only one error had been found today by county clerk's assistants, as they were nearing the completion of their task of tabulating the votes in the recent election.

Sam Jernigan, winning candidate for sheriff, defeated C. E. Jackson by 315 votes, instead of 245, as had been officially indicated. Although the addition had been completed up to the sixteenth amendment, except in the sheriff race, which was close-fought, no check had yet been made.

BIG 'COURTESY DRIVE' CLASS IS PLANNED

The number of automobile accidents caused by careless driving will be minimized and the number of arrests made necessary by violation of county and state traffic regulations will be reduced, provided—

That a traffic law instruction course to be conducted at the Anaheim union high school the nights of November 22 to 24, inclusive, is productive of the results that its sponsors, the Orange county branch of the Truck Owners' Association of Southern California, believe will accrue.

M. C. Fiscus, of Brea, secretary of the county organization, said here today that 300 truck drivers, automobile owners and police officers, are expected to attend the law study course.

Increasing enrollment of persons wishing to attend the classes indicates the readiness with which the "courtesy campaign" is being received, Fiscus said. In the "courtesy campaign," truck drivers will be specially urged to drive 150 feet apart on the highways, in order to permit free passage of traffic, Fiscus explained.

In general, the course to be given drivers entails a complete analysis and study of state traffic laws, with a view to impressing drivers with the importance of their observance.

Persons desiring to attend the courses may enroll, without fee, at the offices of the following firms here, stipulated by Fiscus: Santa Ana Commercial company, Santa Ana Transfer company and Van Dien Young company.

At these places enrollment blanks have been provided. Other places for enrollment have been established throughout the county.

Fiscus said that violation of traffic rules by men employed by members of the truck owners' organization, after the courses have been given, will no doubt result in their dismissal from the association.

AVERAGE ATTENDANCE IN CITY SCHOOLS A DAY GIVEN AS 4221

Average attendance in Santa Ana schools, including kindergarten, high schools and junior college, was 4221 a day during the month from October 9 to November 3, according to the report compiled today by the office of J. A. Cranston, city superintendent of schools.

The total enrollment for the year to date was given as 4776.

SALE OF BOGUS OILS FOR PAINTS STOPPED

ATLANTIC CITY, N. J., Nov. 17.—Efforts of the National Paint, Oil & Varnish Association to stamp out sales of adulterated products under misrepresentation have been so successful that in a report rendered today at the convention of the organization here by R. B. Robinette, of the Tropical Paint & Oil Co., Cleveland, chairman of the committee on adulterated oils and turpentine, it was stated that during the present year apparently little or no adulterated linseed oil has been offered to the public, except such as was plainly marked as adulterated.

Previous to the appointment of the committee, the practice of selling adulterated oil and turpentine as pure had been quite common, it was said.

YELLOW AND WHITE IN BIRTHDAY PARTY FORM UNIQUE CELEBRATION

TUSTIN, Nov. 16.—One of the most unique birthday parties ever held in this vicinity was that of Leda Jane Greenwood, seven-year-old daughter of Mr. and Mrs. F. H. Greenwood, residing between Newport road and Holt avenue, when the colors yellow and white predominated.

Because little Leda is fond of those colors her mother and friends saw to it that everything was made completely to her taste. The white birthday cake, made by her grandfather in Los Angeles, had "Many Happy Birthdays" inscribed on it in yellow. Yellow candle holders held white candles. Yellow jello with white whipped cream; dainty baskets with yellow bows, filled with yellow butter scotch candy and white after-dinner mints, and yellow and white chrysanthemums, aided in carrying out the color scheme.

Games of leap frog, kysples, Queen Ann's Court and pinning the tail on the donkey were played.

Among the youngsters who attended the party and brought gifts to Leda were:

Charles Greenwood, Margaret Finley, Pearl Bachman, Norman and Donald Watson, Jack Newton, Arden and Lois Murray, Elizabeth Wassum, Caro Cogan, Norman and Adele Pyatt, Harry Blee, Martin Jones, Betty and Catherine Cook, Charles Kiser, Dorothy Robinson, Muriel Lambert, Mildred Haskel, and Donald Grisot.

MAN ARRESTED IN TOOL THEFT FREED

Fred Henry, Orange, was free today following a verdict of not guilty in his trial yesterday on burglary charges involving many carpenters' tools.

After less than a half hour, the jury acquitted the defendant. The defense successfully presented an alibi, seeking to show that the man was at his home at the time the state attempted to show the burglary was committed.

ORANGE MAN ACCUSED OF GIRL ATTACK HELD

Jake Harris, Orange, today awaited the filing of information against him in superior court, following his preliminary examination before Justice Samuel Armour at Orange yesterday, when he was identified by a 12-year-old Orange girl as the man who had attacked her.

According to testimony in the preliminary hearing, Harris was under the influence of liquor, and the girl escaped only after a long struggle.

BEACH SCOUT TEAMS COLLECT \$470 TOTAL

Twenty-one of the fifty teams at Huntington Beach working on a campaign to raise \$1500 for this year and next year's budget for Boy Scout work, reported pledges and collections totalling \$470 at a meeting of the Lions club there yesterday. Roland Dye, scout executive, announced here today. The drive will continue until next Wednesday, when it is expected final reports will disclose the full amount subscribed. Dye said. The Lions club is sponsoring the drive.

CALIFORNIA SOLONS LEAVE FOR CAPITAL

SAN FRANCISCO, Nov. 16.—Congressman Julius Kahn and Senator Samuel Sherridge were en route to Washington today for the special session of congress which convenes Monday.

Congressman John I. Nolan, labor leader, is confined to a hospital, seriously ill, and may not be able to leave for several weeks.

Senator Hiram Johnson is resting from the campaign but will be en route to Washington soon, it was said at his home.

Other members of the California delegation are already en route to Washington or will leave within a few days.

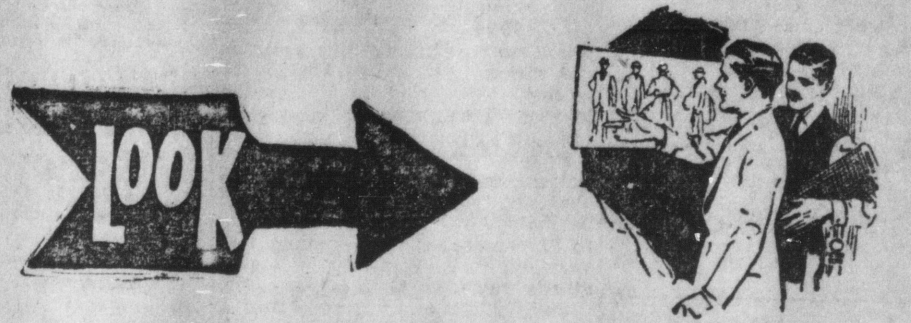

We rent Fords, Dodges and Buicks as low as \$2.00 and \$3.00 per day. Owl Taxi, 411 No. Sycamore. Phone 1486.

better ways than yesterday's

Why don't you still start your car with elbow grease and drive after dark by carbide light? For the same reason that you don't ride on steel tires behind a harnessed horse. There are better ways and more comfortable.

Enduring the tossing throw of unchecked spring recoil is just as out-of-date as yesterday's auto crank and day-before-yesterday's steel tires. In Watson STABILATORS, the culminating improvement of the automobile field, you have a means to automatically control this spring recoil. You will find them the new and better way to easy-riding comfort.

No matter how thick the road is strewn with bumps and ruts Watson STABILATORS enable you to travel comfortably. Instantly after each spring compression STABILATORS exert a braking resistance that dissipates the exact amount of recoil energy stored up by that compression. In this STABILATORS are supreme. No other device on the market can give you this proportionate control, and consequent riding comfort.

Come to any of the dealers listed below and see just how Watson STABILATORS work. Try a set on your car for 15 days. If you are not satisfied they will be taken off and your money refunded.

KELLY'S RIGHT TOO MUCH FOR MATLOCK

L. A. Boy Wins by Knock-out; Jack Iman Stops Lee in Second Frame

DELHI RESULTS
Tom Kelly stopped Leo Matlock, third rights.
Jack Iman stopped Harry Lee, second.
Kid Louie, Johnny O'Brien, draw.
Johnny Nandes won from Young Monroe, decision.
Joe Riley stopped Battling Doty, third.

The next time Leo Matlock, husky Oakland mitt man, schedules two tough bouts on successive nights he won't. Leo learned a good lesson in his half of the double main event at Delhi last night when he took a terrific lacing from Tom Kelly of Los Angeles as the final bout on a hectic card that brought four knockouts in six fights.

Matlock came in the ring pretty well scarred from his brawl with Young George at Vernon Tuesday night. When Kelly got through planting right swings, jabs, uppercuts and everything else in the slugging category on his jaw the Oaklander was a lot more battle scarred.

The end came in the third spasm as Matlock staggered to his feet after the third knock-down in that round. The referee stopped it to save unnecessary punishment just as Leo's seconds tossed in the towel.

Iman Comes Back
A thousand fight bugs will tell the globe that Jack Iman came back last night. The Santa Ana boy was just too good for Harry Lee, the Huntington Beach life-guard. After making a monkey of him in the first round Iman caught Lee flush on the jaw in the second with a slashing right. Lee got up but Iman, scenting victory, closed in and planted another right on the side of the jaw. Lee crashed to the floor and was out at least two minutes. The Huntington Beach battler put up a plucky fight but he was outclassed in every way.

Now comes a chronicle of the only disagreeable thing of the card. There are not enough adjectives in Webster's dictionary to adequately score the decision rendered in the Kid Louie-Johnny O'Brien semi-wind-up. It was horrible, terrible. Two knockdowns didn't mean anything in that fray. O'Brien won by a million miles but the "ref" called it a draw.

Louie Changed
The decision was wretched enough but it was the change in little Kid Louie that hurt even worse than that verdict. It was a different Louie that came in the ring from the good looking, quiet, hard working little fellow that used to do his stuff without any bally-ho. The Placentia boy laughed at his opponent who was working hard and piling up a good lead, acted smart with the ringsters and "showed off" after he had been soundly thrashed.

Louie got a big hand when he came in the ring before the fight. It was a different kind of a hand that he received on his exit. O'Brien dropped Louie in the third and again in the fourth. He outpointed him in the second. It was the Kansas City boy's bout and there wasn't a person in the place who didn't realize that fact except the referee.

Nandes Beats Monroe
Toby Montoya didn't show for his go with Young Monroe. Johnny Nandes of Anaheim went on for him and administered a drubbing to the Los Angeles southpaw. Monroe wasn't defeated badly but he was outpointed all the way.

Joe McGill, a gent whose Scotch-plaid trunks gave the bugs a thrill, knocked Dios Burrell

THIS FOOTBALL REFEREE WAS ANXIOUS TO SEE EVERY PLAY

In a swift play during the Denver-University of Colorado game, the interference slipped between Referee Dana and the man carrying the ball. Dana was seen to leap high in the air in order to keep his eye on the man with the ball. He performed this feat several times during the game.

The Register's Gridiron History Of Santa Ana High School Teams

1899 Eleven Not so Successful as During Previous Year; Players Had Clubrooms Where Gate Receipts of Game Were Equally Divided; "Gavvy" Cravath, Famous Baseball Man, Used in Several Tilts

Santa Ana's 1899 football eleven didn't do so well as the team of 1898, which annexed the city's first Southern California championship.

The team lost many of its old men by graduation and went through most of the season without the services of a regular coach. Several positions were filled by town sportsmen or old-timers.

At the beginning of the season the team acquired a big plot of ground just south of East Fourth street and east of what is now Lacy street. Practice was held on this field.

After every game on the Santa Ana ground it was customary for the members of the team to ride their bicycles to their "clubhouse" over the McFadden Hardware store. After seating themselves in a large circle, the manager would count over the gate receipts and divide the loot among the players. Since there were no eligibility rules, no league schedule or provisions to follow and in view of the fact that the team had to purchase its own football, suits and equipment this was considered absolutely fair.

The first game of the season was played with Pomona college at Claremont. A large tallyho was commandeered for the trip which began at 6 a. m. the day of the fray. Victor Walker, now a local sporting goods dealer, played left end on the team. As the big tallyho pulled out, Walker, who has been jumping in and out of the bus, slipped and fell. The wheel of the bus ran over his leg. Walker did not play that day.

STREET IMPROVEMENT IN TRACT COMPLETED

Graveling and oiling of streets in McFadden tract No. 3 is nearly completed, according to A. B. Roussele, owner. Roussele said that when the work is completed the streets in all of the subdivision will be in first class condition. Building on the tract is progressing rapidly. The owner predicts an increased activity in construction work this spring on the part of persons who have bought lots with a view to building residences.

PICK GOLF OFFICIAL
NEW YORK, Nov. 16.—J. Fredrick Byers of Pittsburgh, president of the United States Golf association, and the entire list of 1921-1922 officials have been picked for re-election by the body's nominating committee, it has been announced.

SCRIBES ARE DEFEATED
SAN FRANCISCO, Nov. 16.—Vaudeville actors beat the San Francisco sport writers baseball team at Recreation park yesterday 13 to 6.

The feature of the game was furnished by "Pesky" Sprott, of the sport writers, when he took five strikes and was called out twice during one time at bat.

GIVE MITCHELL TITLE
MINNEAPOLIS, Nov. 16.—After a national voting contest, Pinky Mitchell, Milwaukee, has been awarded a belt by the National Boxing association as the junior welterweight champion (140 pounds) and he has been ordered to defend it under the rules of the association.

twenty degrees colder than zero in the second bout of the evening. The end came in the second frame.

Battling Doty got so tired hammering Joe Riley around the ring in the first two rounds of the curtain raiser that he was easy prey for the Los Angeles boy in the third. Doty scored knockdowns in the first and second but he used so much energy in doing it that the blows hurt him worse than they did Riley. Doty swung from the heels at the beginning of the third, missed by ten feet and fell exhausted in his corner. It looked as if Doty, with proper training, could make himself into a good boy.

S. A. NINTH GRADERS COLLECT 6 HOMERS, TRIM H. B. 40 TO 5

Six home runs, three of which came in succession, featured the indoor baseball game between the ninth grade teams of Santa Ana and Huntington Beach here yesterday afternoon. The local Junior high school men won a lopsided affair, 40 to 5.

The excellent twirling of Parks for Santa Ana held the beach aggregation at bay throughout. White, Blaine, Daly and Shipp all cracked out homers, the last two players collecting two each. Santa Ana lined up as follows: Parks, P; Daly, C; Youel, 1B; White, 2B; Blaine, 3B; Shipp, SS; M. Youel, LF; Chandler, RF; Baldwin, CF.

GEORGES TALKS
PARIS, Nov. 16.—Talk about another Beckett-Carpenter is unfounded, Carpenter said. "I'm not going to fight any one until I get another crack at that Sikl. I hope the boxing federation does not make me wait nine months for it," he declared.

NEW YORK, Nov. 16.—"Carl May" will pitch for the New York Yankees next year and I'll bet dough that he wins 25 games for us," Colonel Huston, part owner of the Yankees, said. Waivers were asked on Mays as a disciplinary measure, Huston said.

BIG GAME TICKETS SOLD
SAN FRANCISCO, Nov. 16.—Public seat sales for the "big game" between Stanford and California football warriors were in progress in San Francisco, Oakland, Berkeley and at Stanford university today.

Early reports indicated heavy demand and the probability that the 65,000 capacity of the Stanford stadium where the game is to be played will not be any too big.

James noonday lunches.

SANTA ANA MEETS ANAHEIM IN LEAGUE TILT TOMORROW

PROBABLE LINEUP
Santa Ana Anaheim
Coffman R.E.L. Hile
Stillens R.T.L. Walsh
Ritchie R.G.L. Ingram
Linsbard C. Brasted
Townsend L.G.R. Guitosky
Thole L.T.R. Stephens
Gardner L.E.R. Reese
Wilcox Q. Hayes
Black R.H.L. Newkuk
Le Bard L.H.R. Mann
Jabs F. Ferguson

Santa Ana high school's football team will renew its battle for the Orange league title here tomorrow afternoon.

Ray Elliott's Anaheim high school team, kicked and scuffed about by the other championship contenders, will be the opposition for "Spud" Morrison's charges. The game will begin at 3 o'clock.

While Morrison has made public no definite starting lineup it was expected that most of his first string players will be in the game at the opening kickoff. Ritchie, guard, and Stillens, who has been shifted temporarily at least from center to tackle, probably will start.

The Poly coaches do not look at Anaheim as a set-up. They figure Santa Ana should win but that the

Mother Colony men may spring a few surprises. Against Orange, Anaheim showed strength both on the offense and the defense. The two touchdowns that beat Elliott's outfit were the result of blocked punts. Otherwise the teams played even football.

If Santa Ana can put the game on ice early in the afternoon, Morrison, of course, will use the opportunity to rush in his substitutes and save his first stringers for future games, that fracas with Fullerton November 28 in particular.

Poly scrimmaged with the "outlaws" last night and Morrison started Stillens at tackle and Ritchie at guard. Wood replaced Stillens after about ten minutes of work.

The "outlaws" were reinforced at fullback by Wayne ("Stew") Stewart, regarded as one of the best linemen ever produced at Santa Ana high school. The Best brothers, Bill Cole, "Greeky" Williams and other good men were in the team that won out against the first team.

The "chain-gang" play which Centre college used effectively against Harvard was put in operation a couple of times by the "outlaws" but the high school outfit was able to stop it without gain.

SEE THE DOBLE STEAM CAR

SEE THE DOBLE STEAM CAR

Announcement

DOBLE STEAM MOTORS CORPORATION

I desire to announce to the people of California that I have been appointed Fiscal Agent for the Doble Steam Motors Corporation.

And I say to you that my thorough investigation of this Company and its remarkable Motor Car convinces me completely that the stock of this Company is an investment opportunity of rare profit possibilities.

The Doble Steam Car has always created a tremendous sensation wherever it has been shown.

BECAUSE: Abner Doble perfected the application of steam to the motor car in a thoroughly practical way—in a way that has never before been accomplished **BECAUSE:** Abner Doble has taken all the "bugs" out of the steam car of previous years.

BECAUSE: I want you to consider the millions made by others in well managed motor car companies. Today the DOBLE STEAM MOTORS CORPORATION, with its able management, ranks with the greatest in possibilities for profit.

THEN: This car is so amazingly simple in construction and operation, yet so perfectly superb in performance that I am sure you will at once understand why the stock of this Corporation is the outstanding investment of years.

THINK: Of the huge profit possibilities in manufacturing a car that attracted 11,000 orders in 90 days when first offered to the public five years ago.

SIMPLICITY: Of construction makes the DOBLE STEAM CAR tremendously profitable. In the Doble Motor there are but 36 moving parts. A Doble Steam Car of the same wheel base and power is able to out-perform and out-demonstrate any motor car of corresponding power and class. Yet the fact of vital importance is that it can be manufactured at a cost that is materially less.

A superior product—a huge demand for cars—a small manufacturing cost—there is a combination that makes the stock of the DOBLE STEAM MOTORS

CORPORATION, at \$12.50 per share, the outstanding investment of years. Those interested directly or indirectly in the DOBLE STEAM CAR, may obtain full information by writing me at 828 South Broadway, Los Angeles.

SUCH PAINS AS THIS WOMAN HAD

Two Months could not turn in Bed
Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped."—Mrs. G. RICHARDSON, 4640 Orcus St., Seattle, Wash.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after "trying everything any one told me" had failed.

If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound.

Feats of 'Sherlock Holmes,' Detective of Fiction, Are Equalled in Real Life

Window Display in Drug Store Shows Photographic Record of California Case Solved Through Deduction and Knowledge of Psychology of Criminals.

Are the powers of deduction and observation attributed by Sir A. Conan Doyle, to his famous fiction detective, "Sherlock Holmes," overdrawn, or is it possible for a trained investigator to so school his mind that he can accomplish the highly sensational feats attributed to the greatest detective of fiction?

The question is brought up by the showing in the Temple theater, commencing yesterday, of Goldwyn's pictureization of the famous "Sherlock Holmes" stories, with John Barrymore, and by the appearance in connection with the showing of a window display in the White Cross Drug Store at Fourth and Sycamore streets.

The display, which is a photographic record of the famous Witherell kidnapping case in Los Angeles last year, answers the question. It is possible to train a human mind as that of "Sherlock Holmes" was trained. The photographs, and their story, tell the tale of a case handled by Nick Harris, noted California detective, and some of his operatives, with the Los Angeles police. The solution of this mystery, which stirred California for weeks, meant nothing more than scientific deduction and a thorough understanding of the workings of the human mind.

The window display in the White Cross store is attracting a great deal of attention. It shows in photographic form the principals in the case, and copies of the letters from the kidnappers and from their victim.

Woman Lured From Home. Mrs. Gladys Witherell, young and beautiful wife of O. S. Witherell, head of a Los Angeles investment company, was lured from her home by a gray-haired stranger, with a message that her mother-in-law had been injured in an accident. Stepping into his car to be driven to

woman. While he delayed the conversation as much as possible, the source of the call was located in a telephone booth in a drug store at the opposite end of the city. In less than one minute after the voice of the kidnapper was heard on the telephone, the officers knew where their quarry was. In just 14 minutes from the time the phone call came in, the man calling was arrested—before he had time to complete his phone conversation and leave the booth.

A session in police headquarters, and a long siege of the "third degree," and Arthur J. Carr, the man under arrest, confessed. Six cars, loaded with police and detectives armed with shotguns, left the Boyle Heights police station immediately. It was then 2 a. m. Through a driving rain the rescuers drove 65 miles over boulevards and roads, through Santa Ana canyon, and turned into the barren hills three miles east of Corona.

Woman Is Rescued. At 4 a. m., the cars were stopped in the lee of a hill and the 25 men in the posse organized for the attack. Half a mile farther up the road the kidnappers' lair, pointed out by Carr, who accompanied the party, rested in the shadows of the bleak hills. The remainder of the gang, Carr said, expected him back at about that hour, and there would be no suspicion if one car was driven up to the cabin. The nine best shots in the party were loaded into the pilot car, and, with the prisoner, started for the cabin. The balance followed on foot.

The officers were posted. Then the prisoner, by this time thoroughly cowed, opened the rear door of the cabin and entered the kitchen. The group of officers followed, and pushed on into the next room. It was the sleeping room of the kidnappers, but was empty. In the next room was Mrs. Witherell, shrieking hysterically. The officers dashed in this room, expecting to find their prey, but only the victim was there.

A search was instituted. The bed-clothing in the criminals' sleeping room were warm. In a cupboard, revolver in hand, the confederate of Carr was found. He surrendered when the door was thrown open and he found himself confronted by the armed posse. He was Floyd Carr, 37 years old, a cousin of Arthur Carr, the man captured in the telephone booth.

Regular "Sherlock" Methods. The methods employed in the solution of this mystery were virtually the same as those of "Sherlock Holmes," a creature of fiction, whose exploits have made him one of the outstanding figures of detective novels. Just a little common sense, a knowledge of psychology, and the ability to concentrate and to reason deeply. Yet, to the average individual, a feat of detective work that ranks high.

As the immortal detective at the Temple, John Barrymore has found a role worthy to rank with his dual part in "Dr. Jekyll and Mr. Hyde" and his characterization is said to be just as vivid and compelling as in the Stevenson story. The screen "Sherlock Holmes" is an adaptation of the stage play which William Gillette made from the A.

John Barrymore
in "SHERLOCK HOLMES"
A Goldwyn Picture

Conan Doyle stories and which he used as a starring vehicle for so many years.

"Sherlock Holmes" on the screen spells mystery, adventure, thrills, suspense and swift action just as the various tales of the great detective did between the covers of a book. No one will want to miss seeing it.

"CAUGHT BLUFFING" OPENS AT PRINCESS.

The story of a gambler who always played fair except on one occasion—when he resorted to the cunning in his fingers to save a life at stake, comes to the screen of the Princess theater tonight as a Universal special attraction starring Frank Mayo. It is "Caught Bluffing," by Jack Bech-dolt.

The story is laid in the Klondike during the grand gold rush when the lid was off and prohibition a thing unheard of. From the snowclad peaks, down to the valley and the Oxford gambling house, "Caught Bluffing" is said to be flowing over with thrills of the kind that only Frank Mayo can furnish.

In the leading feminine role is Edna Murphy, the little blonde beauty who is making a strong bid for stardom. Miss Murphy's role is said to call for strong emotional acting in a log cabin and her fight for liberty through

WEST END—Wallace Reid, May McAvoy and Agnes Ayres in "Clarence."
PRINCESS—Frank Mayo in "Caught Bluffing."
"TAKE IT FROM ME" HAS REAL STORY, PLOT

With a story that is entertaining from the rise of the curtain to the finish "Take It From Me" the big gorgeous musical comedy which amused New York, Chicago, Boston and Philadelphia last season will come to the Yost theater here Tuesday, November 21.

The authors, Will B. Johnstone, who provided the book and lyrics and Will R. Anderson, who furnished the music have turned out a highly diverting up-to-date and snappy show, bound to win favor any where while the cast is excellent throughout.

Supporting Frank Mayo is an excellent cast which includes Wallace MacDonald, Jack Curtis, Ruth Royce, Andrew Arbuckle, "Bull" Durham, Jack Walters, Scott Turner, Martin Best and Tote Ducrow. Lambert Hillier directed.

WHAT WOULD YOU DO?
If
You were a young girl
And a tremendous blizzard
Forced you to remain
For three months
Shut up in a cabin
Up in the North Woods
Hundreds of miles
Away from civilization
Along with a rugged woodsman
And a polished gentleman
Both professing love for you
And there was no possible
Chance of escape
Nor communication with the outside world
And you knew
If you admitted love
For one—it meant
The other would KILL him
Would You Do What the
French Canadian Girl Did?

THE CALIFORNIA NATIONAL BANK
SANTA ANA, CALIF.
ACIDS IN STOMACH
CAUSE INDIGESTION
Create Gas, Sourness and Pain
Medical authorities state that nearly
nine-tenths of the cases of stomach
trouble, indigestion, sourness, burning,
gas, flatulence, nausea, etc., are due
to an excess of hydrochloric acid in the
stomach and not as some believe to
a lack of digestive juices. The delicate
stomach lining is irritated, digestion
is delayed and food sours, causing the disagreeable symptoms
which every stomach sufferer knows
so well.
Artificial digestants are not needed
in such cases and may do real harm.
Try laying aside all digestive aids
and instead get from any drugist a
few ounces of Blaud's Magnesia
and take a teaspoonful in a quarter
glass of water right after eating.
This sweetens the stomach, prevents
the formation of excess acid and there
is no sourness, gas or pain. Blaud's
Magnesia (in powder or tablet form—
never liquid or milk) is harmless to
the stomach, inexpensive to take and
is the most efficient form of magnesia
for stomach purposes. It is used by
thousands of people who enjoy their
meals with no more fear of indigestion.—adv.

A PICTURE YOU MUST NOT MISS!
—At last, the world-famous Sherlock Holmes comes to
the screen in a breath-taking drama of London's under-
world, that is the most powerful and sweeping dramatic
picture of the year.

Gratitude is the fairest blossom which springs from the soul; and the heart of man knoweth none more fragrant.—Hoshea Ballou.

IN A WORTHY CAUSE

The appropriation of \$1,000 by the county, through its board of supervisors, to the fund to be used in building fire trails and fire breaks in the Santa Ana mountains is an appropriation in a worthy cause. It is carrying out a policy of co-operation between the United States Forest Service, the county, irrigation companies and property owners entered into a number of years ago and worked out satisfactorily and successfully.

Orange county needs no demonstration of the damage that might be done should any considerable portion of the Santa Ana mountains be burned over. That brush and trees in the mountains are a substantial aid in the control of floods and in the conservation of water, is an established economic fact.

If demonstration close at home were necessary, residents of the county need go no further back than the burning over of Holy Jim Canyon, in the upper Trabuco canyon, a few years ago. Following this fire, silt was washed into the stream. Water that came down in rain ran quickly into the waterways and down to the ocean instead of being held back for gradual percolation downward. Once burned over and subjected to heavy storms, a mountain area becomes more or less stripped of soil, and it becomes difficult for vegetation to gain a foothold. It takes years to repair the damage that a fire does to any given mountain area.

The protection of the watersheds is a duty that is placed upon the United States Forest Service. Orange County has always received a generous apportionment of federal funds for work in establishing a system of trails and breaks, and the apportionment has been generous because the federal authorities have recognized that the representatives of this county are alive to the public welfare interests that are centered in the mountains along the county's eastern boundary.

TERRIFYING ETIQUETTE

With all due gratitude to the compilers and publishers of books on etiquette, a humble representative of the struggling public feels like uttering one wail of complaint. Cannot the advertisers of these life-saving works present their volumes without throwing such abject fear into the hearts and minds of eligible readers?

One may have partaken of the pleasing olive—both green and ripe—for many years; one may have ridden countless miles on Pullman cars; one may have dropped daily forks in restaurants, or even accepted introductions with untutored self-assurance, without ever knowing oneself ridiculous, conspicuous or a boob. Yet, when asked sudden and personal questions about these matters from the almost human pages of an advertisement of a book on etiquette, the hypnotized reader gazes at the words in awed fascination, and the mischief is done.

From that day on, his banquets and travels and social activities are haunted by the fear that he's going to slip up on some tricky little convention. Sooner or later, as the psychologists warn him on other advertising pages, his marvellous powers of concentration will lead him to perform the very acts he has been dreading.

A new problem arises. Should he purchase the six weeks' course in practical psychology and acquire poise and etiquette by overcoming this fear thought, or should he end it all by buying the handy etiquette volumes and learning all the rules therein with the help of a de luxe memory course? Some one should write a book to guide the public in this matter. The situation is indeed terrifying.

IMMIGRATION CHANCES

J. M. Larkin, an official of the Bethlehem Steel Company, says that the present 3 per cent restrictive immigration law is going to "work a hardship on large employers" unless material changes are made in its provisions.

That is evident to anybody who studies the question. American labor now is pretty fully occupied, with no fresh labor coming in. What will happen when industry speeds up a little more? Undoubtedly a scarcity of labor, with consequent bidding up of wages.

What is going to be done about it? Mr. Larkin urges an increase in the number of "worthy applicants for citizenship." If by that he means to suggest any considerable increase in the total number of immigrants now admitted, he is probably doomed to disappointment. If he means only a wiser process of selecting the numbers now permitted, he is on safe ground.

There is a general agreement with his view that prospective immigrants should be examined in their home countries by American experts, to determine their fitness for admission. It may be, too, that applicants should be accepted largely on economic lines, to provide recruits for American industries needing them most, as is done in Canada.

At present most of the new-comers are women and children. This class of immigration helps our "large employers" very little. Yet if men are going to be preferred, the American housewife, herself a large employer of labor, will have something to say about that.

With automobiles getting so cheap and roads so good, eventually our human population may all migrate from season to season, like birds.

LOW PUBLIC PAY

The research work of the U. S. Department of Agriculture is one of its most important activities and has saved the nation millions of dollars.

This work is frequently in danger from mistaken cuts in appropriations and from the discouragement of low pay to trained scientific workers. Skilled specialists engaged in government agricultural work receive only about one-fifth as much pay as do men of the same attainments in private life.

The loyalty of the men who stay under such a condition is obvious. Most of those already in the work will remain because they enjoy the service and have acquired the habit of working for Uncle Sam. However, there will soon be a falling off in research efficiency for the simple reason that it is becoming increasingly difficult to obtain new men to fill vacancies. Young men who have received the necessary special training for such work are no longer

willing to undertake a life-long service which offers so uninviting a future.

It is a situation which needs remedying, yet the plight of the federal agricultural workers is not unique. Other departments of the government underpay their workers, and in state and local governments as well, important officials are frequently underpaid.

With all the talk about easy money and easy work in public employ, the fact remains that the quality of service rendered in branches requiring special skill, ability and training is nearly always maintained at a high standard, while the average remuneration ranks far below similar reward in private life. Here is misplaced and false economy which should be overcome.

ARMS VERSUS REASON

"They say we have a military budget of 5,000,000,000 francs," says Clemenceau. "I do not know whether that figure is correct or exaggerated, but I do know that I have seen two German invasions and that I do not want to try a third, and I eagerly wish our friends over there (in America) to understand this feeling."

Americans think they do understand the feeling. But possibly Americans, being at a distance and less directly influenced by fear and prejudice, understand a little better than Clemenceau and his fellow countrymen that anything in the nature of swashbuckling or excessive armament or quest of revenge is the very best way to invite another invasion when Germany shall have recovered her strength.

It is not a question of what France deserves. Americans agree that she deserves all she can possibly get out of Germany, and far more. But it is a question of the value of calm reason and conciliation as an international policy. Americans are inclined to think that there is more protection in that at this time than in big armies.

What It Does Not Show

Fresno Republican
Just how important is a national election? To know, we have to know also a lot of other things.

But to know how unimportant an election is, all we have to know is how important a lot of people think it is.

For instance, there is the report from France that wine dealers hear we have had a Democratic landslide and expect to find a market for their surplus liquor at once.

Then there is the idea, also from Europe, as a result of Jimmie Cox's trip, that this Democratic landslide will result in our joining the League of Nations.

Then there is the notion, also among certain foreign business interests, that the Democrats are free traders, and that therefore they will be able to get by the American protective tariff wall.

These are just a few things to show how unimportant is a national election in the United States.

To be sure, remarkable as has been the overturn of votes in Eastern states, there has been no Democratic landslide.

And secondly the Democrats, whatever may have been their traditional and prehistoric attitude toward whisky, are not committed to wine or against it, any more than any other party.

And then again, Jimmie Cox does not represent the prospective attitude of the Democratic party, as far as any one knows, toward the League of Nations or anything else.

And finally, any shifting from Republican to Democratic control of administration will not affect our protective tariff policy. The Democratic list may read somewhat different from the Republican, but we are a protective tariff nation, despite Democratic philosophy.

The Golden Branch

Imperial Valley Press
One branch of a red apple tree in Gloucester county N. J., has been sold for \$5000. The branch is to remain on the tree, and the purchaser has the right to remove buds from it for grafting on less desirable stock. In addition the owner of the tree is to receive two cents for every tree budded from the branch.

This is probably the first deal of the kind ever consummated. News of it will be received everywhere with exclamations of surprise. Yet there would be no surprise if the purchaser were paying his \$5000 for a diamond or an automobile. And the branch in question may be worth more, potentially, than a whole diamond mine or automobile factory. From it may come an endless and continually expanding progeny of trees bearing fruit of inestimable value to humanity.

It may prove to be veritably a "golden branch," more precious than any the poets have fabled. The substantial recognition of its value is a sign of more intelligent standards. Our judgment of desirable things may be very different hereafter from what it has been in the past.

Again Certifies Johnson

Stockton Record
Once again Senator Hiram W. Johnson has been certified to the nation by the people of California, his home state. The magnificent victory of the brilliant Westerner is emphasized when contrasted with the defeat of Republican senate leaders elsewhere. The drift of the country was Democratic this year, a reaction to the big Republican victory of two years ago. California, however, has not been fickle. This state stands solidly by her distinguished son. California believes in Hiram Johnson; California is proud of Hiram Johnson. He goes back to the United States senate with increased power and prestige, fitted for even more effective work for his native state and for the entire West. Keep your eyes on him!

California Demands Speed

Riverside Enterprise
California is asking that the Colorado river flood control work be undertaken at as early a date as possible. The results of last year's flood in the Palo Verde valley have brought home to the people of this part of the state the absolute necessity of something to protect great agricultural projects from the menace of annihilation, which would occur on a most terrible scale in the Imperial valley if the river should get out of control and begin to fill the ancient sea basin as it did many years ago. The flood menace is the first consideration. Later will come the reclamation, power and irrigation projects. The Washington administration appreciates the importance of the Colorado river situation but there must be co-ordinated support and harmony in the interested states in working out the allocation of the water and other benefits before it will be possible to secure any consideration from congress.

Editorial Shorts

Well, the election is over, and for some time, at least, we are going to have a chance to do something else, and I think of something else beside "Amendment No. So-and-so" and "Proposition No. So-and-so," vote "no" on this and "yes" on that, etc., etc., etc.—Santa Paula Chronicle.

It Went to His Head

Lincoln's Example

Sacramento Bee

No one will deny that Nancy Hanks, the mother of the great emancipator, was a remarkable woman and that the influence she exerted on her gifted son was one of the controlling and directing factors in his career.

But Lincoln himself would have been the last man in the world to claim "superiority" over his fellow countrymen because his family "was one of the best in America."

Nothing but blindness of an attitude of mind, worthy only of the monarchical and aristocratic traditions of the old world, could think any service was being done either to the memory of Lincoln or his place in the hearts of Americans by such an idea.

One of the secrets of his great hold on the imagination and admiration of his people lies in the fact that he typifies the democratic hope of achievement despite the handicaps of birth and early surroundings; of unique service founded not on a lineage, but on innate goodness and his own high and noble endeavor; of glory won from beginnings of the most humble kind.

Meeting in Kansas City a few days ago, the United Confederate Veterans of Missouri passed a resolution that Abraham Lincoln was "one of the greatest and noblest Americans who ever lived."

Humble men, common men, plain men, democratic men love him most because he came into the world in poverty, but went out leaving behind him a record of deeds of service to mankind; the luster of which time cannot diminish or changing civilization mar.

Worth While Verse

IF I HAD RIDDEN HORSES

If I had ridden horses in the lists,
Fought wars, gone pilgrimage to fabled lands,
Seen Pharaoh's drinking-cups of amethysts,
Held dead queens' secret jewels in my hands—
I would have laid my triumphs at your feet,
And worn with no ignoble pride my scars . . .
But I can only offer you, my sweet,
The songs I made on many a night of stars.

Yet have I worshiped honor, loving you;
Your graciousness and gentle courtesy,
With ringing and romantic trumpets blew
A mighty music through the heart of me.
A joy as cleansing as the wind that fills
The open spaces on the sunny hills.
—By Theodore Maynard.

Time to Smile

SHE GOT THE JOB.

Mr. Sharp was engaging a new typist.
"Chew gum?" he asked.
"No, sir."
"Gossip over the phone or talk sling?"
"Never."
"Flirt with the clerks when you're not busy?"
"No."
He paused to think up some more questions, when the girl began:
"Smoke cheap cigars when you're dictating?"
"Why-er-no."
"Take it out on the typist when you've had a row at home and come out worst?"
"Certainly not!"
"Do you use forcible language when business is bad?"
"N—never!"
"Want me to get to work, or is your time worth so little that—"
"Look here," he broke in, recovering himself, "let's get at those letters!"—From the Boston Transcript.

SYMPATHY

Mrs. Flatt—How can you look so unconcerned when you know I am shivering with the cold?
Mr. Flatt—What can I do?
Mrs. Flatt—You might at least shiver too.—Boston Transcript.

THE MEASURE

Kind Friend—I did what I could, Tony. I told her you had more money than sense.
The Victim—And what did she say?

FAREWELL "TINO"

"The Greek revolution was bloodless."
"That's easily explained."
"Yes?"
"It was practically unanimous."—Birmingham Age-Herald.

Can the Cancellationists

San Bernardino Sun

It seems altogether likely that together with the same rate of interest the United States had to pay in raising the money to loan to them.

There is not and never has been any reasonable doubt of the ultimate ability of any of the leading nations to pay. Even Russia will be able to pay if her national policies ever again get into the control of men of sound economic principles. Great Britain's trade balance has already returned to the right side of the ledger and her good financial position is evidenced by the fact that sterling exchange is but slightly below normal. None of the nations is able to pay immediately, and no one expects that immediate payment will be made. No one asks it. Undoubtedly, however, the debts incident to the World War will be liquidated as rapidly as other war debts have been.

Every utterance from high official sources in those countries owing large amounts to the United States contains an assurance that there is no intention to try to evade payment of one cent of the debt. The latest declaration on that subject has come from the new Chancellor of the Exchequer of Great Britain who asserts that "our first duty will be to settle our debt to America. . . . To the last penny we are going to pay it." Several months ago similar assertions were made by French officials concerning the debt of France to the United States.

Those assurances ought to be accepted by Americans at full face value and there should be an end of discussion of cancellation. It is exceedingly poor taste for an American to direct insinuations at the honor of European nations when they have repeatedly given assurance of the intention to pay a every dollar they have borrowed.

In official circles in this country there is nothing to justify raising any question concerning the collection of the debts. The Harding administration has declared itself unequivocally on that subject. No member of congress has ever advocated cancellation and no member can advocate it and secure re-election.

The United States has many important problems pressing for solution. To these we can very properly give our earnest attention instead of devoting so much time to the discussion of an issue that has never existed outside the minds of a few politicians in Europe and a few internationalists here.

Some Odds and Ends

IVAN

Henry Ford predicts that the 300,000,000 people of Russia eventually will be manufacturing and buying more autos than Americans.

Russia's comeback may be a lot nearer than most of us imagine. Ford says that "within the not distant future" he expects to have plants in Russia producing autos from Russian raw materials exclusively.

When pessimistic about the final outcome in Russia, remember that dormant power cannot be locked up forever.

Russia may be our best export customer by 1930.

HOUSEWORK

The best thinking seems to be coming from small towns, as usual. The Brookville Record furnishes this: "It is hard to understand a sex that is too proud to do housework at \$15 a week, but will marry and do it for nothing."

The housewife, of course, works for love, not money. Still, this isn't a satisfactory explanation. As a mystery, love is even more baffling than life. Life doesn't survive. Love does.

MOVIE

A new English movie, "The Battle of the Ants," shows two rival colonies in a war that lasted two weeks. The ants are shown building bridges, attacking in mass formation, looting the enemies' homes, carrying away their building material.

Audiences seem most interested in the ant societies who guard the bridges and challenge all who pass. Movies of this sort, picturing thrilling adventures in nature, will become common if audiences ever weary of seeing countless new versions of Cinderella, the favorite movie and fiction plot.

EXCEPTIONAL

Only about 28,000 American tourists crossed the Atlantic this summer, steamship officials estimate. Many of them behaved bestially at European bars. And from the Whist club.

Adventures of The Twins

Snow Man is Worried

By Olive Roberts Barton

The Twins climbed a mountain and before long they came to a place where there was a lot of snow.

Right near was a little house where a woodchopper lived, and out in the front yard stood a big white figure looking thoughtfully at nothing at all.

"There's Snow Man," whispered Nancy. "Let's surprise him." So they tiptoed up softly from behind and yelled "boo" so loudly that Snow Man dropped his gun, stick and his butter-bowl hat slid down over his eyes.

"Who is it?" he gasped. "Is school out already? I thought from the looks of the sky it was only ten o'clock. Billy, please pick up my stick and straighten my hat. I'd be mortified to death if anyone saw me like this."

Nancy and Nick stepped around where Mr. Snow Man could see them. "We're not Billy," laughed Nancy, straightening his hat.
